**TITLE I—PREDISASTER HAZARD
MITIGATION**42 USC 5133
note.**SEC. 101. FINDINGS AND PURPOSE.**

(a) **FINDINGS.**—Congress finds that—

(1) natural disasters, including earthquakes, tsunamis, tornadoes, hurricanes, flooding, and wildfires, pose great danger to human life and to property throughout the United States;

(2) greater emphasis needs to be placed on—

(A) identifying and assessing the risks to States and local governments (including Indian tribes) from natural disasters;

(B) implementing adequate measures to reduce losses from natural disasters; and

(C) ensuring that the critical services and facilities of communities will continue to function after a natural disaster;

PUBLIC LAW 106-390—OCT. 30, 2000

(3) expenditures for postdisaster assistance are increasing without commensurate reductions in the likelihood of future losses from natural disasters;

(4) in the expenditure of Federal funds under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.), high priority should be given to mitigation of hazards at the local level; and

(5) with a unified effort of economic incentives, awareness and education, technical assistance, and demonstrated Federal support, States and local governments (including Indian tribes) will be able to—

(A) form effective community-based partnerships for hazard mitigation purposes;

(B) implement effective hazard mitigation measures that reduce the potential damage from natural disasters;

(C) ensure continued functionality of critical services;

(D) leverage additional non-Federal resources in meeting natural disaster resistance goals; and

(E) make commitments to long-term hazard mitigation efforts to be applied to new and existing structures.

(b) **PURPOSE.**—The purpose of this title is to establish a national disaster hazard mitigation program—

(1) to reduce the loss of life and property, human suffering, economic disruption, and disaster assistance costs resulting from natural disasters; and

(2) to provide a source of predisaster hazard mitigation funding that will assist States and local governments (including Indian tribes) in implementing effective hazard mitigation measures that are designed to ensure the continued functionality of critical services and facilities after a natural disaster.

SEC. 102. PREDISASTER HAZARD MITIGATION.

(a) **IN GENERAL.**—Title II of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5131 et seq.) is amended by adding at the end the following:

“(c) **APPROVAL BY PRESIDENT.**—If the President determines that a State or local government has identified natural disaster hazards in areas under its jurisdiction and has demonstrated the ability to form effective public-private natural disaster hazard mitigation partnerships, the President, using amounts in the National Predisaster Mitigation Fund established under subsection (i) (referred to in this section as the ‘Fund’), may provide technical and financial assistance to the State or local government to be used in accordance with subsection (e).

PUBLIC LAW 106-174—FEB. 25, 2000

Public Law 106-174 106th Congress

An Act

To provide assistance for poison prevention and to stabilize the funding of regional poison control centers.

Feb. 25, 2000

[S. 632]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Poison Control Center Enhancement and Awareness Act”.

Poison Control
Center
Enhancement
and Awareness
Act.
42 USC 14801
note.
42 USC 14801.

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) Each year more than 2,000,000 poisonings are reported to poison control centers throughout the United States. More than 90 percent of these poisonings happen in the home. Fifty-three percent of poisoning victims are children younger than 6 years of age.

(2) Poison control centers are a valuable national resource that provide life-saving and cost-effective public health services. For every dollar spent on poison control centers, \$7 in medical costs are saved. The average cost of a poisoning exposure call is \$32, while the average cost if other parts of the medical system are involved is \$932. Over the last 2 decades, the instability and lack of funding has resulted in a steady decline in the number of poison control centers in the United States. Within just the last year, 2 poison control centers have been forced to close because of funding problems. A third poison control center is scheduled to close in April 1999. Currently, there are 73 such centers.

(3) Stabilizing the funding structure and increasing accessibility to poison control centers will increase the number of United States residents who have access to a certified poison control center, and reduce the inappropriate use of emergency medical services and other more costly health care services.

SEC. 3. DEFINITION.

In this Act, the term “Secretary” means the Secretary of Health and Human Services.

42 USC 14802.

SEC. 4. ESTABLISHMENT OF A NATIONAL TOLL-FREE NUMBER.

42 USC 14803.

(a) IN GENERAL.—The Secretary shall provide coordination and assistance to regional poison control centers for the establishment of a nationwide toll-free phone number to be used to access such centers.

(4) by striking “Practitioners who dispense” and inserting “Except as provided in paragraph (2), practitioners who dispense”; and

(5) by adding at the end the following paragraph:

“(2)(A) Subject to subparagraphs (D) and (J), the requirements of paragraph (1) are waived in the case of the dispensing (including the prescribing), by a practitioner, of narcotic drugs in schedule III, IV, or V or combinations of such drugs if the practitioner meets the conditions specified in subparagraph (B) and the narcotic drugs or combinations of such drugs meet the conditions specified in subparagraph (C).

“(B) For purposes of subparagraph (A), the conditions specified in this subparagraph with respect to a practitioner are that, before the initial dispensing of narcotic drugs in schedule III, IV, or V or combinations of such drugs to patients for maintenance or detoxification treatment, the practitioner submit to the Secretary a notification of the intent of the practitioner to begin dispensing the drugs or combinations for such purpose, and that the notification contain the following certifications by the practitioner:

“(i) The practitioner is a qualifying physician (as defined in subparagraph (G)).

“(ii) With respect to patients to whom the practitioner will provide such drugs or combinations of drugs, the practitioner has the capacity to refer the patients for appropriate counseling and other appropriate ancillary services.

“(iii) In any case in which the practitioner is not in a group practice, the total number of such patients of the practitioner at any one time will not exceed the applicable number. For purposes of this clause, the applicable number is 30, except that the Secretary may by regulation change such total number.

“(iv) In any case in which the practitioner is in a group practice, the total number of such patients of the group practice at any one time will not exceed the applicable number. For purposes of this clause, the applicable number is 30, except that the Secretary may by regulation change such total number, and the Secretary for such purposes may by regulation establish different categories on the basis of the number of practitioners in a group practice and establish for the various categories different numerical limitations on the number of such patients that the group practice may have.

“(C) For purposes of subparagraph (A), the conditions specified in this subparagraph with respect to narcotic drugs in schedule III, IV, or V or combinations of such drugs are as follows:

PUBLIC LAW 106-310—OCT. 17, 2000

“(i) The drugs or combinations of drugs have, under the Federal Food, Drug, and Cosmetic Act or section 351 of the Public Health Service Act, been approved for use in maintenance or detoxification treatment.

Federal Register,
publication.

“(ii) The drugs or combinations of drugs have not been the subject of an adverse determination. For purposes of this clause, an adverse determination is a determination published in the Federal Register and made by the Secretary, after consultation with the Attorney General, that the use of the drugs or combinations of drugs for maintenance or detoxification treatment requires additional standards respecting the qualifications of practitioners to provide such treatment, or requires standards respecting the quantities of the drugs that may be provided for unsupervised use.

“(D)(i) A waiver under subparagraph (A) with respect to a practitioner is not in effect unless (in addition to conditions under subparagraphs (B) and (C)) the following conditions are met:

“(I) The notification under subparagraph (B) is in writing and states the name of the practitioner.

“(II) The notification identifies the registration issued for the practitioner pursuant to subsection (f).

“(III) If the practitioner is a member of a group practice, the notification states the names of the other practitioners in the practice and identifies the registrations issued for the other practitioners pursuant to subsection (f).

“(ii) Upon receiving a notification under subparagraph (B), the Attorney General shall assign the practitioner involved an identification number under this paragraph for inclusion with the registration issued for the practitioner pursuant to subsection (f). The identification number so assigned shall be appropriate to preserve the confidentiality of patients for whom the practitioner has dispensed narcotic drugs under a waiver under subparagraph (A).

Deadline.

“(iii) Not later than 45 days after the date on which the Secretary receives a notification under subparagraph (B), the Secretary shall make a determination of whether the practitioner involved meets all requirements for a waiver under subparagraph (B). If the Secretary fails to make such determination by the end of the such 45-day period, the Attorney General shall assign the physician an identification number described in clause (ii) at the end of such period.

“(E)(i) If a practitioner is not registered under paragraph (1) and, in violation of the conditions specified in subparagraphs (B) through (D), dispenses narcotic drugs in schedule III, IV, or V or combinations of such drugs for maintenance treatment or detoxification treatment, the Attorney General may, for purposes of section 304(a)(4), consider the practitioner to have committed an act that renders the registration of the practitioner pursuant to subsection (f) to be inconsistent with the public interest.

Expiration date.

“(ii)(I) Upon the expiration of 45 days from the date on which the Secretary receives a notification under subparagraph (B), a practitioner who in good faith submits a notification under subparagraph (B) and reasonably believes that the conditions specified in subparagraphs (B) through (D) have been met shall, in dispensing narcotic drugs in schedule III, IV, or V or combinations of such drugs for maintenance treatment or detoxification treatment, be considered to have a waiver under subparagraph (A) until notified otherwise by the Secretary, except that such a practitioner may commence to prescribe or dispense such narcotic drugs for such purposes prior to the expiration of such 45-day period if it facilitates the treatment of an individual patient and both the Secretary and the Attorney General are notified by the practitioner of the intent to commence prescribing or dispensing such narcotic drugs.

Federal Register,
publication.

“(II) For purposes of subclause (I), the publication in the Federal Register of an adverse determination by the Secretary pursuant to subparagraph (C)(ii) shall (with respect to the narcotic drug

PUBLIC LAW 106-310—OCT. 17, 2000

or combination involved) be considered to be a notification provided by the Secretary to practitioners, effective upon the expiration of the 30-day period beginning on the date on which the adverse determination is so published.

“(F)(i) With respect to the dispensing of narcotic drugs in schedule III, IV, or V or combinations of such drugs to patients for maintenance or detoxification treatment, a practitioner may, in his or her discretion, dispense such drugs or combinations for such treatment under a registration under paragraph (1) or a waiver under subparagraph (A) (subject to meeting the applicable conditions).

“(ii) This paragraph may not be construed as having any legal effect on the conditions for obtaining a registration under paragraph (1), including with respect to the number of patients who may be served under such a registration.

“(G) For purposes of this paragraph:

“(i) The term ‘group practice’ has the meaning given such term in section 1877(h)(4) of the Social Security Act.

“(ii) The term ‘qualifying physician’ means a physician who is licensed under State law and who meets one or more of the following conditions:

“(I) The physician holds a subspecialty board certification in addiction psychiatry from the American Board of Medical Specialties.

“(II) The physician holds an addiction certification from the American Society of Addiction Medicine.

“(III) The physician holds a subspecialty board certification in addiction medicine from the American Osteopathic Association.

“(V) The physician has participated as an investigator in one or more clinical trials leading to the approval of a narcotic drug in schedule III, IV, or V for maintenance or detoxification treatment, as demonstrated by a statement submitted to the Secretary by the sponsor of such approved drug.

“(VI) The physician has such other training or experience as the State medical licensing board (of the State in which the physician will provide maintenance or detoxification treatment) considers to demonstrate the ability of the physician to treat and manage opiate-dependent patients.

“(VII) The physician has such other training or experience as the Secretary considers to demonstrate the ability of the physician to treat and manage opiate-dependent patients. Any criteria of the Secretary under this subclause shall be established by regulation. Any such criteria are effective only for 3 years after the date on which the criteria are promulgated, but may be extended for such additional discrete 3-year periods as the Secretary considers appropriate for purposes of this subclause. Such an extension of criteria may only be effectuated through a statement published in the Federal Register by the Secretary during the 30-day period preceding the end of the 3-year period involved.

(1) IN GENERAL.—In carrying this section, the United States Sentencing Commission shall, with respect to each offense described in subsection (a) involving ephedrine, phenylpropanolamine, or pseudoephedrine (including their salts, optical isomers, and salts of optical isomers), review and amend its guidelines to provide for increased penalties such that those penalties corresponded to the quantity of controlled substance that could reasonably have been manufactured using the quantity of ephedrine, phenylpropanolamine, or pseudoephedrine possessed or distributed.

(2) CONVERSION RATIOS.—For the purposes of the amendments made by this subsection, the quantity of controlled substance that could reasonably have been manufactured shall be determined by using a table of manufacturing conversion ratios for ephedrine, phenylpropanolamine, and pseudoephedrine, which table shall be established by the Sentencing Commission based on scientific, law enforcement, and other data the Sentencing Commission considers appropriate.

(c) OTHER LIST I CHEMICALS.—In carrying this section, the United States Sentencing Commission shall, with respect to each offense described in subsection (a) involving any list I chemical other than ephedrine, phenylpropanolamine, or pseudoephedrine, review and amend its guidelines to provide for increased penalties such that those penalties reflect the dangerous nature of such offenses, the need for aggressive law enforcement action to fight such offenses, and the extreme dangers associated with unlawful activity involving methamphetamine and amphetamine, including—

(1) the rapidly growing incidence of controlled substance manufacturing;

(2) the extreme danger inherent in manufacturing controlled substances;

(3) the threat to public safety posed by manufacturing controlled substances; and

(4) the recent increase in the importation, possession, and distribution of list I chemicals for the purpose of manufacturing controlled substances.

“(v) Exports which have been reported to the Attorney General pursuant to section 1004 or 1018 or which are subject to a waiver granted under section 1018(e)(2).

“(vi) Any quantity, method, or type of distribution or any quantity, method, or type of distribution of a specific listed chemical (including specific formulations or drug products) or of a group of listed chemicals (including specific formulations or drug products) which the Attorney General has excluded by regulation from such reporting requirement on the basis that such reporting is not necessary for the enforcement of this title or title III.

“(E) The Attorney General may revoke any or all of the exemptions listed in subparagraph (D) for an individual regulated person if he finds that drug products distributed by the regulated person are being used in violation of this title or title III. The regulated person shall be notified of the revocation, which will be effective upon receipt by the person of such notice, as provided in section 1018(c)(1),

Subtitle C—Ecstasy AntiProliferationAct of 2000

Ecstasy Anti-Proliferation Act of 2000.

SEC. 3661. SHORT TITLE.

42 USC 201 note.

This subtitle may be cited as the “Ecstasy Anti-Proliferation Act of 2000”.

SEC. 3662. FINDINGS.

42 USC 290aa-5b note.

Congress makes the following findings:

(1) The illegal importation of 3,4-methylenedioxy methamphetamine, commonly referred to as “MDMA” or “Ecstasy” (referred to in this subtitle as “Ecstasy”), has increased in recent years, as evidenced by the fact that Ecstasy seizures by the United States Customs Service have increased from less than 500,000 tablets during fiscal year 1997 to more than 9,000,000 tablets during the first 9 months of fiscal year 2000.

(2) Use of Ecstasy can cause long-lasting, and perhaps permanent, damage to the serotonin system of the brain, which is fundamental to the integration of information and emotion,

PUBLIC LAW 106-310—OCT. 17, 2000

and this damage can cause long-term problems with learning and memory.

(3) Due to the popularity and marketability of Ecstasy, there are numerous Internet websites with information on the effects of Ecstasy, the production of Ecstasy, and the locations of Ecstasy use (often referred to as “raves”). The availability of this information targets the primary users of Ecstasy, who are most often college students, young professionals, and other young people from middle- to high-income families.

(4) Greater emphasis needs to be placed on—

(A) penalties associated with the manufacture, distribution, and use of Ecstasy;

(B) the education of young people on the negative health effects of Ecstasy, since the reputation of Ecstasy as a “safe” drug is the most dangerous component of Ecstasy;

(C) the education of State and local law enforcement agencies regarding the growing problem of Ecstasy trafficking across the United States;

(D) reducing the number of deaths caused by Ecstasy use and the combined use of Ecstasy with other “club” drugs and alcohol; and

(E) adequate funding for research by the National Institute on Drug Abuse to—

(i) identify those most vulnerable to using Ecstasy and develop science-based prevention approaches tailored to the specific needs of individuals at high risk;

(ii) understand how Ecstasy produces its toxic effects and how to reverse neurotoxic damage;

(iii) develop treatments, including new medications and behavioral treatment approaches;

(iv) better understand the effects that Ecstasy has on the developing children and adolescents; and

(v) translate research findings into useful tools and ensure their effective dissemination.

28 USC 994 note.

SEC. 3663. ENHANCED PUNISHMENT OF ECSTASY TRAFFICKERS.

(a) AMENDMENT TO FEDERAL SENTENCING GUIDELINES.—Pursuant to its authority under section 994(p) of title 28, United States Code, the United States Sentencing Commission (referred to in this section as the “Commission”) shall amend the Federal sentencing guidelines regarding any offense relating to the manufacture, importation, or exportation of, or trafficking in—

(1) 3,4-methylenedioxy methamphetamine;

(2) 3,4-methylenedioxy amphetamine;

(3) 3,4-methylenedioxy-N-ethylamphetamine;

(4) paramethoxymethamphetamine (PMA); or

(5) any other controlled substance, as determined by the Commission in consultation with the Attorney General, that is marketed as Ecstasy and that has either a chemical structure substantially similar to that of 3,4-methylenedioxy methamphetamine or an effect on the central nervous system substantially similar to or greater than that of 3,4-methylenedioxy methamphetamine,

including an attempt or conspiracy to commit an offense described in paragraph (1), (2), (3), (4), or (5) in violation of the Controlled Substances Act (21 U.S.C. 801 et seq.), the Controlled Substances Import and Export Act (21 U.S.C. 951 et seq.), or the Maritime Drug Law Enforcement Act (46 U.S.C. 1901 et seq.).

(b) GENERAL REQUIREMENTS.—In carrying out this section, the Commission shall, with respect to each offense described in subsection (a)—

(1) review and amend the Federal sentencing guidelines to provide for increased penalties such that those penalties

PUBLIC LAW 106-310—OCT. 17, 2000

reflect the seriousness of these offenses and the need to deter them; and

(2) take any other action the Commission considers to be necessary to carry out this section.

(c) **ADDITIONAL REQUIREMENTS.**—In carrying out this section, the Commission shall ensure that the Federal sentencing guidelines for offenders convicted of offenses described in subsection (a) reflect—

(1) the need for aggressive law enforcement action with respect to offenses involving the controlled substances described in subsection (a); and

(2) the dangers associated with unlawful activity involving such substances, including—

(A) the rapidly growing incidence of abuse of the controlled substances described in subsection (a) and the threat to public safety that such abuse poses;

(B) the recent increase in the illegal importation of the controlled substances described in subsection (a);

(C) the young age at which children are beginning to use the controlled substances described in subsection (a);

(D) the fact that the controlled substances described in subsection (a) are frequently marketed to youth;

(E) the large number of doses per gram of the controlled substances described in subsection (a); and

(F) any other factor that the Commission determines to be appropriate.

(d) **SENSE OF THE CONGRESS.**—It is the sense of the Congress that—

(1) the base offense levels for Ecstasy are too low, particularly for high-level traffickers, and should be increased, such that they are comparable to penalties for other drugs of abuse; and

(2) based on the fact that importation of Ecstasy has surged in the past few years, the traffickers are targeting the Nation's youth, and the use of Ecstasy among youth in the United States is increasing even as other drug use among this population appears to be leveling off, the base offense levels for importing and trafficking the controlled substances described in subsection (a) should be increased.

(e) **REPORT.**—Not later than 60 days after the amendments pursuant to this section have been promulgated, the Commission shall—

Deadline.

(1) prepare a report describing the factors and information considered by the Commission in promulgating amendments pursuant to this section; and

(2) submit the report to—

(A) the Committee on the Judiciary, the Committee on Health, Education, Labor, and Pensions, and the Committee on Appropriations of the Senate; and

(B) the Committee on the Judiciary, the Committee on Commerce, and the Committee on Appropriations of the House of Representatives.

“(b) **DESCRIPTION OF COMPLIANT STATE PROGRAMS.**—For purposes of subsection (a), the laws or regulations of a State are in accordance with this subsection if under such laws or regulations (including programs carried out pursuant to the discretion of State officials) the following policies are in effect:

“(1) The State requires that the public health officer of the State carry out a program of partner notification to inform partners of individuals with HIV disease that the partners may have been exposed to the disease.

“(2)(A) In the case of a health entity that provides for the performance on an individual of a test for HIV disease, or that treats the individual for the disease, the State requires, subject to subparagraph (B), that the entity confidentially report the positive test results to the State public health officer in a manner recommended and approved by the Director of the Centers for Disease Control and Prevention, together with such additional information as may be necessary for carrying out such program.

“(B) The State may provide that the requirement of subparagraph (A) does not apply to the testing of an individual for HIV disease if the individual underwent the testing through a program designed to perform the test and provide the results to the individual without the individual disclosing his or her identity to the program. This subparagraph may not be construed as affecting the requirement of subparagraph (A) with respect to a health entity that treats an individual for HIV disease.

“(3) The program under paragraph (1) is carried out in accordance with the following:

“(A) Partners are provided with an appropriate opportunity to learn that the partners have been exposed to HIV disease, subject to subparagraph (B).

“(B) The State does not inform partners of the identity of the infected individuals involved.

“(C) Counseling and testing for HIV disease are made available to the partners and to infected individuals, and

PUBLIC LAW 106-345—OCT. 20, 2000

such counseling includes information on modes of transmission for the disease, including information on prenatal and perinatal transmission and preventing transmission.

“(D) Counseling of infected individuals and their partners includes the provision of information regarding therapeutic measures for preventing and treating the deterioration of the immune system and conditions arising from the disease, and the provision of other prevention-related information.

“(E) Referrals for appropriate services are provided to partners and infected individuals, including referrals for support services and legal aid.

“(F) Notifications under subparagraph (A) are provided in person, unless doing so is an unreasonable burden on the State.

“(G) There is no criminal or civil penalty on, or civil liability for, an infected individual if the individual chooses not to identify the partners of the individual, or the individual does not otherwise cooperate with such program.

“(H) The failure of the State to notify partners is not a basis for the civil liability of any health entity who under the program reported to the State the identity of the infected individual involved.

“(I) The State provides that the provisions of the program may not be construed as prohibiting the State from providing a notification under subparagraph (A) without the consent of the infected individual involved.

“(4) The State annually reports to the Director of the Centers for Disease Control and Prevention the number of individuals from whom the names of partners have been sought under the program under paragraph (1), the number of such individuals who provided the names of partners, and the number of partners so named who were notified under the program.

“(5) The State cooperates with such Director in carrying out a national program of partner notification, including the sharing of information between the public health officers of the States.

“(c) REPORTING SYSTEM FOR CASES OF HIV DISEASE; PREFERENCE IN MAKING GRANTS.—In making grants under subsection (a), the Secretary shall give preference to States whose reporting systems for cases of HIV disease produce data on such cases that is sufficiently accurate and reliable for use for purposes of section 2618(a)(2)(D)(i).

TITLE I—PROGRAMS FOR INDIVIDUALS WITH DEVELOPMENTAL DISABILITIES

Subtitle A—General Provisions

42 USC 15001.

SEC. 101. FINDINGS, PURPOSES, AND POLICY.

(a) FINDINGS.—Congress finds that—

(1) disability is a natural part of the human experience that does not diminish the right of individuals with developmental disabilities to live independently, to exert control and choice over their own lives, and to fully participate in and contribute to their communities through full integration and inclusion in the economic, political, social, cultural, and educational mainstream of United States society;

(2) in 1999, there were between 3,200,000 and 4,500,000 individuals with developmental disabilities in the United States, and recent studies indicate that individuals with developmental disabilities comprise between 1.2 and 1.65 percent of the United States population;

(3) individuals whose disabilities occur during their developmental period frequently have severe disabilities that are likely to continue indefinitely;

(4) individuals with developmental disabilities often encounter discrimination in the provision of critical services, such as services in the areas of emphasis (as defined in section 102);

(5) individuals with developmental disabilities are at greater risk than the general population of abuse, neglect, financial and sexual exploitation, and the violation of their legal and human rights;

(6) a substantial portion of individuals with developmental disabilities and their families do not have access to appropriate support and services, including access to assistive technology, from generic and specialized service systems, and remain unserved or underserved;

(7) individuals with developmental disabilities often require lifelong community services, individualized supports, and other forms of assistance, that are most effective when provided in a coordinated manner;

(8) there is a need to ensure that services, supports, and other assistance are provided in a culturally competent manner, that ensures that individuals from racial and ethnic minority backgrounds are fully included in all activities provided under this title;

(9) family members, friends, and members of the community can play an important role in enhancing the lives of

PUBLIC LAW 106-402—OCT. 30, 2000

individuals with developmental disabilities, especially when the family members, friends, and community members are provided with the necessary community services, individualized supports, and other forms of assistance;

(10) current research indicates that 88 percent of individuals with developmental disabilities live with their families or in their own households;

(11) many service delivery systems and communities are not prepared to meet the impending needs of the 479,862 adults with developmental disabilities who are living at home with parents who are 60 years old or older and who serve as the primary caregivers of the adults;

(12) in almost every State, individuals with developmental disabilities are waiting for appropriate services in their communities, in the areas of emphasis;

(13) the public needs to be made more aware of the capabilities and competencies of individuals with developmental disabilities, particularly in cases in which the individuals are provided with necessary services, supports, and other assistance;

(14) as increasing numbers of individuals with developmental disabilities are living, learning, working, and participating in all aspects of community life, there is an increasing need for a well trained workforce that is able to provide the services, supports, and other forms of direct assistance required to enable the individuals to carry out those activities;

(15) there needs to be greater effort to recruit individuals from minority backgrounds into professions serving individuals with developmental disabilities and their families;

(16) the goals of the Nation properly include a goal of providing individuals with developmental disabilities with the information, skills, opportunities, and support to—

(A) make informed choices and decisions about their lives;

(B) live in homes and communities in which such individuals can exercise their full rights and responsibilities as citizens;

(C) pursue meaningful and productive lives;

(D) contribute to their families, communities, and States, and the Nation;

(E) have interdependent friendships and relationships with other persons;

(F) live free of abuse, neglect, financial and sexual exploitation, and violations of their legal and human rights; and

(G) achieve full integration and inclusion in society, in an individualized manner, consistent with the unique strengths, resources, priorities, concerns, abilities, and capabilities of each individual; and

(17) as the Nation, States, and communities maintain and expand community living options for individuals with developmental disabilities, there is a need to evaluate the access to those options by individuals with developmental disabilities and the effects of those options on individuals with developmental disabilities.

(b) PURPOSE.—The purpose of this title is to assure that individuals with developmental disabilities and their families participate in the design of and have access to needed community services, individualized supports, and other forms of assistance that promote self-determination, independence, productivity, and integration and inclusion in all facets of community life, through culturally competent programs authorized under this title, including specifically—

(1) State Councils on Developmental Disabilities in each State to engage in advocacy, capacity building, and systemic change activities that—

PUBLIC LAW 106-402—OCT. 30, 2000

(A) are consistent with the purpose described in this subsection and the policy described in subsection (c); and

(B) contribute to a coordinated, consumer- and family-centered, consumer- and family-directed, comprehensive system that includes needed community services, individualized supports, and other forms of assistance that promote self-determination for individuals with developmental disabilities and their families;

(2) protection and advocacy systems in each State to protect the legal and human rights of individuals with developmental disabilities;

(3) University Centers for Excellence in Developmental Disabilities Education, Research, and Service—

(A) to provide interdisciplinary pre-service preparation and continuing education of students and fellows, which may include the preparation and continuing education of leadership, direct service, clinical, or other personnel to strengthen and increase the capacity of States and communities to achieve the purpose of this title;

(B) to provide community services—

(i) that provide training and technical assistance for individuals with developmental disabilities, their families, professionals, paraprofessionals, policy-makers, students, and other members of the community; and

(ii) that may provide services, supports, and assistance for the persons described in clause (i) through demonstration and model activities;

(C) to conduct research, which may include basic or applied research, evaluation, and the analysis of public policy in areas that affect or could affect, either positively or negatively, individuals with developmental disabilities and their families; and

(D) to disseminate information related to activities undertaken to address the purpose of this title, especially dissemination of information that demonstrates that the network authorized under this subtitle is a national and international resource that includes specific substantive areas of expertise that may be accessed and applied in diverse settings and circumstances; and

(4) funding for—

(A) national initiatives to collect necessary data on issues that are directly or indirectly relevant to the lives of individuals with developmental disabilities;

(B) technical assistance to entities who engage in or intend to engage in activities consistent with the purpose described in this subsection or the policy described in subsection (c); and

(C) other nationally significant activities.

(c) **POLICY.**—It is the policy of the United States that all programs, projects, and activities receiving assistance under this title shall be carried out in a manner consistent with the principles that—

(1) individuals with developmental disabilities, including those with the most severe developmental disabilities, are capable of self-determination, independence, productivity, and integration and inclusion in all facets of community life, but often require the provision of community services, individualized supports, and other forms of assistance;

(2) individuals with developmental disabilities and their families have competencies, capabilities, and personal goals that should be recognized, supported, and encouraged, and any assistance to such individuals should be provided in an individualized manner, consistent with the unique strengths,

PUBLIC LAW 106-402—OCT. 30, 2000

resources, priorities, concerns, abilities, and capabilities of such individuals;

(3) individuals with developmental disabilities and their families are the primary decisionmakers regarding the services and supports such individuals and their families receive, including regarding choosing where the individuals live from available options, and play decisionmaking roles in policies and programs that affect the lives of such individuals and their families;

(4) services, supports, and other assistance should be provided in a manner that demonstrates respect for individual dignity, personal preferences, and cultural differences;

(5) specific efforts must be made to ensure that individuals with developmental disabilities from racial and ethnic minority backgrounds and their families enjoy increased and meaningful opportunities to access and use community services, individualized supports, and other forms of assistance available to other individuals with developmental disabilities and their families;

(6) recruitment efforts in disciplines related to developmental disabilities relating to pre-service training, community training, practice, administration, and policymaking must focus on bringing larger numbers of racial and ethnic minorities into the disciplines in order to provide appropriate skills, knowledge, role models, and sufficient personnel to address the growing needs of an increasingly diverse population;

(7) with education and support, communities can be accessible to and responsive to the needs of individuals with developmental disabilities and their families and are enriched by full and active participation in community activities, and contributions, by individuals with developmental disabilities and their families;

(8) individuals with developmental disabilities have access to opportunities and the necessary support to be included in community life, have interdependent relationships, live in homes and communities, and make contributions to their families, communities, and States, and the Nation;

(9) efforts undertaken to maintain or expand community-based living options for individuals with disabilities should be monitored in order to determine and report to appropriate individuals and entities the extent of access by individuals with developmental disabilities to those options and the extent of compliance by entities providing those options with quality assurance standards;

(10) families of children with developmental disabilities need to have access to and use of safe and appropriate child care and before-school and after-school programs, in the most integrated settings, in order to enrich the participation of the children in community life;

(11) individuals with developmental disabilities need to have access to and use of public transportation, in order to be independent and directly contribute to and participate in all facets of community life; and

(12) individuals with developmental disabilities need to have access to and use of recreational, leisure, and social opportunities in the most integrated settings, in order to enrich their participation in community life.

Families of
Children With
Disabilities
Support Act of
2000.
42 USC 15001
note.

42 USC 15091.

TITLE II—FAMILY SUPPORT

SEC. 201. SHORT TITLE.

This title may be cited as the “Families of Children With Disabilities Support Act of 2000”.

SEC. 202. FINDINGS, PURPOSES, AND POLICY.

(a) **FINDINGS.**—Congress makes the following findings:

(1) It is in the best interest of our Nation to preserve, strengthen, and maintain the family.

(2) Families of children with disabilities provide support, care, and training to their children that can save States millions of dollars. Without the efforts of family caregivers, many persons with disabilities would receive care through State-supported out-of-home placements.

(3) Most families of children with disabilities, especially families in unserved and underserved populations, do not have access to family-centered and family-directed services to support such families in their efforts to care for such children at home.

(4) Medical advances and improved health care have increased the life span of many people with disabilities, and the combination of the longer life spans and the aging of family caregivers places a continually increasing demand on the finite service delivery systems of the States.

(5) In 1996, 49 States provided family support initiatives in response to the needs of families of children with disabilities. Such initiatives included the provision of cash subsidies, respite care, and other forms of support. There is a need in each State, however, to strengthen, expand, and coordinate the activities of a system of family support services for families of children with disabilities that is easily accessible, avoids duplication, uses resources efficiently, and prevents gaps in services to families in all areas of the State.

(6) The goals of the Nation properly include the goal of providing to families of children with disabilities the family support services necessary—

(A) to support the family;

(B) to enable families of children with disabilities to nurture and enjoy their children at home;

(C) to enable families of children with disabilities to make informed choices and decisions regarding the nature of supports, resources, services, and other assistance made available to such families; and

(D) to support family caregivers of adults with disabilities.

(b) **PURPOSES.**—The purposes of this title are—

(1) to promote and strengthen the implementation of comprehensive State systems of family support services, for families with children with disabilities, that are family-centered and family-directed, and that provide families with the greatest possible decisionmaking authority and control regarding the nature and use of services and support;

PUBLIC LAW 106-402—OCT. 30, 2000

(2) to promote leadership by families in planning, policy development, implementation, and evaluation of family support services for families of children with disabilities;

(3) to promote and develop interagency coordination and collaboration between agencies responsible for providing the services; and

(4) to increase the availability of, funding for, access to, and provision of family support services for families of children with disabilities.

(c) **POLICY.**—It is the policy of the United States that all programs, projects, and activities funded under this title shall be family-centered and family-directed, and shall be provided in a manner consistent with the goal of providing families of children with disabilities with the support the families need to raise their children at home.

A State may exclude from cost sharing low-income individuals whose incomes are above the Federal poverty line. A State shall not consider any assets, savings, or other property owned by older individuals when defining low-income individuals who are exempt from cost sharing, when creating a sliding scale for the cost sharing, or when seeking contributions from any older individual.

“(4) PAYMENT RATES.—If a State permits the cost sharing described in paragraph (1), such State shall establish a sliding scale, based solely on individual income and the cost of delivering services.

“(G) widely distribute State created written materials in languages reflecting the reading abilities of older individuals that describe the criteria for cost sharing, the State's sliding scale, and the mandate described under subparagraph (E).

“(6) WAIVER.—An area agency on aging may request a waiver to the State's cost sharing policies, and the State shall approve such a waiver if the area agency on aging can adequately demonstrate that—

“(d) EVALUATION.—Not later than 1 year after the date of the enactment of the Older Americans Act Amendments of 2000, and annually thereafter, the Assistant Secretary shall conduct a comprehensive evaluation of practices for cost sharing to determine its impact on participation rates with particular attention to low-income and minority older individuals and older individuals residing in rural areas. If the Assistant Secretary finds that there is a disparate impact upon low-income or minority older individuals or older individuals residing in rural areas in any State or region within the State regarding the provision of services, the Assistant Secretary shall take corrective action to assure that such services are provided to all older individuals without regard to the cost sharing criteria.

“(4) any restriction under paragraph (5) of section 308(b), on the amount that may be transferred between programs carried out under part B and part C; and

Clinical Research
Enhancement
Act of 2000.

TITLE II—CLINICAL RESEARCH ENHANCEMENT

42 USC 201 note.

SEC. 201. SHORT TITLE.

This title may be cited as the “Clinical Research Enhancement Act of 2000”.

42 USC 284k
note.

SEC. 202. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress makes the following findings:

(1) Clinical research is critical to the advancement of scientific knowledge and to the development of cures and improved treatment for disease.

(2) Tremendous advances in biology are opening doors to new insights into human physiology, pathophysiology and disease, creating extraordinary opportunities for clinical research.

(3) Clinical research includes translational research which is an integral part of the research process leading to general human applications. It is the bridge between the laboratory and new methods of diagnosis, treatment, and prevention and is thus essential to progress against cancer and other diseases.

(4) The United States will spend more than \$1,200,000,000,000 on health care in 1999, but the Federal budget for health research at the National Institutes of Health was \$15,600,000,000 only 1 percent of that total.

PUBLIC LAW 106-505—NOV. 13, 2000

(5) Studies at the Institute of Medicine, the National Research Council, and the National Academy of Sciences have all addressed the current problems in clinical research.

(6) The Director of the National Institutes of Health has recognized the current problems in clinical research and appointed a special panel, which recommended expanded support for existing National Institutes of Health clinical research programs and the creation of new initiatives to recruit and retain clinical investigators.

(7) The current level of training and support for health professionals in clinical research is fragmented, undervalued, and underfunded.

(8) Young investigators are not only apprentices for future positions but a crucial source of energy, enthusiasm, and ideas in the day-to-day research that constitutes the scientific enterprise. Serious questions about the future of life-science research are raised by the following:

(A) The number of young investigators applying for grants dropped by 54 percent between 1985 and 1993.

(B) The number of physicians applying for first-time National Institutes of Health research project grants fell from 1226 in 1994 to 963 in 1998, a 21 percent reduction.

(C) Newly independent life-scientists are expected to raise funds to support their new research programs and a substantial proportion of their own salaries.

(9) The following have been cited as reasons for the decline in the number of active clinical researchers, and those choosing this career path:

(A) A medical school graduate incurs an average debt of \$85,619, as reported in the Medical School Graduation Questionnaire by the Association of American Medical Colleges (AAMC).

(B) The prolonged period of clinical training required increases the accumulated debt burden.

(C) The decreasing number of mentors and role models.

(D) The perceived instability of funding from the National Institutes of Health and other Federal agencies.

(E) The almost complete absence of clinical research training in the curriculum of training grant awardees.

(F) Academic Medical Centers are experiencing difficulties in maintaining a proper environment for research in a highly competitive health care marketplace, which are compounded by the decreased willingness of third party payers to cover health care costs for patients engaged in research studies and research procedures.

(10) In 1960, general clinical research centers were established under the Office of the Director of the National Institutes of Health with an initial appropriation of \$3,000,000.

(11) Appropriations for general clinical research centers in fiscal year 1999 equaled \$200,500,000.

(12) Since the late 1960s, spending for general clinical research centers has declined from approximately 3 percent to 1 percent of the National Institutes of Health budget.

(13) In fiscal year 1999, there were 77 general clinical research centers in operation, supplying patients in the areas in which such centers operate with access to the most modern clinical research and clinical research facilities and technologies.

(b) PURPOSE.—It is the purpose of this title to provide additional support for and to expand clinical research programs.

TITLE III—RESEARCH LABORATORY INFRASTRUCTURE

Twenty—First
Century
Research
Laboratories Act.

SEC. 301. SHORT TITLE.

This title may be cited as the “Twenty-First Century Research Laboratories Act”.

42 USC 201 note.

SEC. 302. FINDINGS.

Congress finds that—

(1) the National Institutes of Health is the principal source of Federal funding for medical research at universities and other research institutions in the United States;

(2) the National Institutes of Health has received a substantial increase in research funding from Congress for the purpose of expanding the national investment of the United States in behavioral and biomedical research;

(3) the infrastructure of our research institutions is central to the continued leadership of the United States in medical research;

(4) as Congress increases the investment in cutting-edge basic and clinical research, it is critical that Congress also examine the current quality of the laboratories and buildings where research is being conducted, as well as the quality of laboratory equipment used in research;

(5) many of the research facilities and laboratories in the United States are outdated and inadequate;

(6) the National Science Foundation found, in a 1998 report on the status of biomedical research facilities, that over 60 percent of research-performing institutions indicated that they had an inadequate amount of medical research space;

(7) the National Science Foundation reports that academic institutions have deferred nearly \$11,000,000,000 in renovation and construction projects because of a lack of funds; and

(8) future increases in Federal funding for the National Institutes of Health must include increased support for the renovation and construction of extramural research facilities in the United States and the purchase of state-of-the-art laboratory instrumentation.

42 USC 287a–2
note.

SEC. 303. BIOMEDICAL AND BEHAVIORAL RESEARCH FACILITIES.

Section 481A of the Public Health Service Act (42 U.S.C. 287a–2 et seq.) is amended to read as follows:

“SEC. 481A. BIOMEDICAL AND BEHAVIORAL RESEARCH FACILITIES.

Cardiac Arrest
Survival Act of
2000.

TITLE IV—CARDIAC ARREST SURVIVAL

Subtitle A—Recommendations for Federal Buildings

42 USC 201 note.

SEC. 401. SHORT TITLE.

This subtitle may be cited as the “Cardiac Arrest Survival Act of 2000”.

42 USC 238p
note.

SEC. 402. FINDINGS.

Congress makes the following findings:

(1) Over 700 lives are lost every day to sudden cardiac arrest in the United States alone.

(2) Two out of every three sudden cardiac deaths occur before a victim can reach a hospital.

PUBLIC LAW 106-505—NOV. 13, 2000

(3) More than 95 percent of these cardiac arrest victims will die, many because of lack of readily available life saving medical equipment.

(4) With current medical technology, up to 30 percent of cardiac arrest victims could be saved if victims had access to immediate medical response, including defibrillation and cardiopulmonary resuscitation.

(5) Once a victim has suffered a cardiac arrest, every minute that passes before returning the heart to a normal rhythm decreases the chance of survival by 10 percent.

(6) Most cardiac arrests are caused by abnormal heart rhythms called ventricular fibrillation. Ventricular fibrillation occurs when the heart's electrical system malfunctions, causing a chaotic rhythm that prevents the heart from pumping oxygen to the victim's brain and body.

(7) Communities that have implemented programs ensuring widespread public access to defibrillators, combined with appropriate training, maintenance, and coordination with local emergency medical systems, have dramatically improved the survival rates from cardiac arrest.

(8) Automated external defibrillator devices have been demonstrated to be safe and effective, even when used by lay people, since the devices are designed not to allow a user to administer a shock until after the device has analyzed a victim's heart rhythm and determined that an electric shock is required.

(9) Increasing public awareness regarding automated external defibrillator devices and encouraging their use in Federal buildings will greatly facilitate their adoption.

(10) Limiting the liability of Good Samaritans and acquirers of automated external defibrillator devices in emergency situations may encourage the use of automated external defibrillator devices, and result in saved lives.

SEC. 403. RECOMMENDATIONS AND GUIDELINES OF SECRETARY OF HEALTH AND HUMAN SERVICES REGARDING AUTOMATED EXTERNAL DEFIBRILLATORS FOR FEDERAL BUILDINGS.

Part B of title II of the Public Health Service Act (42 U.S.C. 238 et seq.) is amended by adding at the end the following:

“RECOMMENDATIONS AND GUIDELINES REGARDING AUTOMATED EXTERNAL DEFIBRILLATORS FOR FEDERAL BUILDINGS

“SEC. 247. (a) GUIDELINES ON PLACEMENT.—The Secretary shall establish guidelines with respect to placing automated external defibrillator devices in Federal buildings. Such guidelines shall take into account the extent to which such devices may be used by lay persons, the typical number of employees and visitors in the buildings, the extent of the need for security measures regarding the buildings, buildings or portions of buildings in which there are special circumstances such as high electrical voltage or extreme heat or cold, and such other factors as the Secretary determines to be appropriate.

42 USC 238p.

“(b) RELATED RECOMMENDATIONS.—The Secretary shall publish in the Federal Register the recommendations of the Secretary on the appropriate implementation of the placement of automated external defibrillator devices under subsection (a), including procedures for the following:

Federal Register, publication.

“(1) Implementing appropriate training courses in the use of such devices, including the role of cardiopulmonary resuscitation.

“(2) Proper maintenance and testing of the devices.

“(3) Ensuring coordination with appropriate licensed professionals in the oversight of training of the devices.

PUBLIC LAW 106-505—NOV. 13, 2000

“(4) Ensuring coordination with local emergency medical systems regarding the placement and incidents of use of the devices.

“(c) CONSULTATIONS; CONSIDERATION OF CERTAIN RECOMMENDATIONS.—In carrying out this section, the Secretary shall—

“(1) consult with appropriate public and private entities;

“(2) consider the recommendations of national and local public-health organizations for improving the survival rates of individuals who experience cardiac arrest in nonhospital settings by minimizing the time elapsing between the onset of cardiac arrest and the initial medical response, including defibrillation as necessary; and

“(3) consult with and counsel other Federal agencies where such devices are to be used.

Deadline.

“(d) DATE CERTAIN FOR ESTABLISHING GUIDELINES AND RECOMMENDATIONS.—The Secretary shall comply with this section not later than 180 days after the date of the enactment of the Cardiac Arrest Survival Act of 2000.

“(e) DEFINITIONS.—For purposes of this section:

“(1) The term ‘automated external defibrillator device’ has the meaning given such term in section 248.

“(2) The term ‘Federal building’ includes a building or portion of a building leased or rented by a Federal agency, and includes buildings on military installations of the United States.”.

SEC. 404. GOOD SAMARITAN PROTECTIONS REGARDING EMERGENCY USE OF AUTOMATED EXTERNAL DEFIBRILLATORS.

Part B of title II of the Public Health Service Act, as amended by section 403, is amended by adding at the end the following:

“LIABILITY REGARDING EMERGENCY USE OF AUTOMATED EXTERNAL DEFIBRILLATORS

42 USC 238q.

“SEC. 248. (a) GOOD SAMARITAN PROTECTIONS REGARDING AEDS.—Except as provided in subsection (b), any person who uses or attempts to use an automated external defibrillator device on a victim of a perceived medical emergency is immune from civil liability for any harm resulting from the use or attempted use of such device; and in addition, any person who acquired the device is immune from such liability, if the harm was not due to the failure of such acquirer of the device—

“(1) to notify local emergency response personnel or other appropriate entities of the most recent placement of the device within a reasonable period of time after the device was placed;

“(2) to properly maintain and test the device; or

“(3) to provide appropriate training in the use of the device to an employee or agent of the acquirer when the employee or agent was the person who used the device on the victim, except that such requirement of training does not apply if—

“(A) the employee or agent was not an employee or agent who would have been reasonably expected to use the device; or

“(B) the period of time elapsing between the engagement of the person as an employee or agent and the occurrence of the harm (or between the acquisition of the device and the occurrence of the harm, in any case in which the device was acquired after such engagement of the person) was not a reasonably sufficient period in which to provide the training.

“(b) INAPPLICABILITY OF IMMUNITY.—Immunity under subsection (a) does not apply to a person if—

“(1) the harm involved was caused by willful or criminal misconduct, gross negligence, reckless misconduct, or a conscious, flagrant indifference to the rights or safety of the victim who was harmed;

PUBLIC LAW 106-505—NOV. 13, 2000

“(2) the person is a licensed or certified health professional who used the automated external defibrillator device while acting within the scope of the license or certification of the professional and within the scope of the employment or agency of the professional;

“(3) the person is a hospital, clinic, or other entity whose purpose is providing health care directly to patients, and the harm was caused by an employee or agent of the entity who used the device while acting within the scope of the employment or agency of the employee or agent; or

“(4) the person is an acquirer of the device who leased the device to a health care entity (or who otherwise provided the device to such entity for compensation without selling the device to the entity), and the harm was caused by an employee or agent of the entity who used the device while acting within the scope of the employment or agency of the employee or agent.

“(c) RULES OF CONSTRUCTION.—

“(1) IN GENERAL.—The following applies with respect to this section:

“(A) This section does not establish any cause of action, or require that an automated external defibrillator device be placed at any building or other location.

“(B) With respect to a class of persons for which this section provides immunity from civil liability, this section supersedes the law of a State only to the extent that the State has no statute or regulations that provide persons in such class with immunity for civil liability arising from the use by such persons of automated external defibrillator devices in emergency situations (within the meaning of the State law or regulation involved).

“(C) This section does not waive any protection from liability for Federal officers or employees under—

“(i) section 224; or

“(ii) sections 1346(b), 2672, and 2679 of title 28, United States Code, or under alternative benefits provided by the United States where the availability of such benefits precludes a remedy under section 1346(b) of title 28.

“(2) CIVIL ACTIONS UNDER FEDERAL LAW.—

“(A) IN GENERAL.—The applicability of subsections (a) and (b) includes applicability to any action for civil liability described in subsection (a) that arises under Federal law.

“(B) FEDERAL AREAS ADOPTING STATE LAW.—If a geographic area is under Federal jurisdiction and is located within a State but out of the jurisdiction of the State, and if, pursuant to Federal law, the law of the State applies in such area regarding matters for which there is no applicable Federal law, then an action for civil liability described in subsection (a) that in such area arises under the law of the State is subject to subsections (a) through (c) in lieu of any related State law that would apply in such area in the absence of this subparagraph.

“(d) FEDERAL JURISDICTION.—In any civil action arising under State law, the courts of the State involved have jurisdiction to apply the provisions of this section exclusive of the jurisdiction of the courts of the United States.

“(e) DEFINITIONS.—

“(1) PERCEIVED MEDICAL EMERGENCY.—For purposes of this section, the term ‘perceived medical emergency’ means circumstances in which the behavior of an individual leads a reasonable person to believe that the individual is experiencing a life-threatening medical condition that requires an immediate medical response regarding the heart or other cardiopulmonary functioning of the individual.

PUBLIC LAW 106–505—NOV. 13, 2000

- “(2) OTHER DEFINITIONS.—For purposes of this section:
- “(A) The term ‘automated external defibrillator device’ means a defibrillator device that—
- “(i) is commercially distributed in accordance with the Federal Food, Drug, and Cosmetic Act;
 - “(ii) is capable of recognizing the presence or absence of ventricular fibrillation, and is capable of determining without intervention by the user of the device whether defibrillation should be performed;
 - “(iii) upon determining that defibrillation should be performed, is able to deliver an electrical shock to an individual; and
 - “(iv) in the case of a defibrillator device that may be operated in either an automated or a manual mode, is set to operate in the automated mode.
- “(B)(i) The term ‘harm’ includes physical, nonphysical, economic, and noneconomic losses.
- “(ii) The term ‘economic loss’ means any pecuniary loss resulting from harm (including the loss of earnings or other benefits related to employment, medical expense loss, replacement services loss, loss due to death, burial costs, and loss of business or employment opportunities) to the extent recovery for such loss is allowed under applicable State law.
- “(iii) The term ‘noneconomic losses’ means losses for physical and emotional pain, suffering, inconvenience, physical impairment, mental anguish, disfigurement, loss of enjoyment of life, loss of society and companionship, loss of consortium (other than loss of domestic service), hedonic damages, injury to reputation and all other non-pecuniary losses of any kind or nature.”.

Subtitle B—Rural Access to Emergency Devices

42 USC 254c
note.

SEC. 411. SHORT TITLE.

This subtitle may be cited as the “Rural Access to Emergency Devices Act” or the “Rural AED Act”.

42 USC 254c
note.

SEC. 412. FINDINGS.

Congress makes the following findings:

(1) Heart disease is the leading cause of death in the United States.

(2) The American Heart Association estimates that 250,000 Americans die from sudden cardiac arrest each year.

(3) A cardiac arrest victim's chance of survival drops 10 percent for every minute that passes before his or her heart is returned to normal rhythm.

(4) Because most cardiac arrest victims are initially in ventricular fibrillation, and the only treatment for ventricular fibrillation is defibrillation, prompt access to defibrillation to return the heart to normal rhythm is essential.

(5) Lifesaving technology, the automated external defibrillator, has been developed to allow trained lay rescuers to respond to cardiac arrest by using this simple device to shock the heart into normal rhythm.

(6) Those people who are likely to be first on the scene of a cardiac arrest situation in many communities, particularly smaller and rural communities, lack sufficient numbers of automated external defibrillators to respond to cardiac arrest in a timely manner.

(7) The American Heart Association estimates that more than 50,000 deaths could be prevented each year if defibrillators were more widely available to designated responders.

PUBLIC LAW 106–505—NOV. 13, 2000

(8) Legislation should be enacted to encourage greater public access to automated external defibrillators in communities across the United States.

SEC. 413. GRANTS.

42 USC 254c
note.

(a) **IN GENERAL.**—The Secretary of Health and Human Services, acting through the Rural Health Outreach Office of the Health Resources and Services Administration, shall award grants to community partnerships that meet the requirements of subsection (b) to enable such partnerships to purchase equipment and provide training as provided for in subsection (c).

(b) **COMMUNITY PARTNERSHIPS.**—A community partnership meets the requirements of this subsection if such partnership—

(1) is composed of local emergency response entities such as community training facilities, local emergency responders, fire and rescue departments, police, community hospitals, and local non-profit entities and for-profit entities concerned about cardiac arrest survival rates;

(2) evaluates the local community emergency response times to assess whether they meet the standards established by national public health organizations such as the American Heart Association and the American Red Cross; and

(3) submits to the Secretary of Health and Human Services an application at such time, in such manner, and containing such information as the Secretary may require.

(c) **USE OF FUNDS.**—Amounts provided under a grant under this section shall be used—

(1) to purchase automated external defibrillators that have been approved, or cleared for marketing, by the Food and Drug Administration; and

(2) to provide defibrillator and basic life support training in automated external defibrillator usage through the American Heart Association, the American Red Cross, or other nationally recognized training courses.

(d) **REPORT.**—Not later than 4 years after the date of the enactment of this Act, the Secretary of Health and Human Services shall prepare and submit to the appropriate committees of Congress a report containing data relating to whether the increased availability of defibrillators has affected survival rates in the communities in which grantees under this section operated. The procedures under which the Secretary obtains data and prepares the report under this subsection shall not impose an undue burden on program participants under this section.

(e) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated \$25,000,000 for fiscal years 2001 through 2003 to carry out this section.

TITLE V—LUPUS RESEARCH AND CARE

Lupus Research
and Care
Amendments of
2000.
42 USC 201 note.

SEC. 501. SHORT TITLE.

This title may be cited as the “Lupus Research and Care Amendments of 2000”.

SEC. 502. FINDINGS.

42 USC 285d–6a
note.

The Congress finds that—

(1) lupus is a serious, complex, inflammatory, autoimmune disease of particular concern to women;

(2) lupus affects women nine times more often than men;

(3) there are three main types of lupus: systemic lupus, a serious form of the disease that affects many parts of the body; discoid lupus, a form of the disease that affects mainly the skin; and drug-induced lupus caused by certain medications;

(4) lupus can be fatal if not detected and treated early;

PUBLIC LAW 106-505—NOV. 13, 2000

(5) the disease can simultaneously affect various areas of the body, such as the skin, joints, kidneys, and brain, and can be difficult to diagnose because the symptoms of lupus are similar to those of many other diseases;

(6) lupus disproportionately affects African-American women, as the prevalence of the disease among such women is three times the prevalence among white women, and an estimated 1 in 250 African-American women between the ages of 15 and 65 develops the disease;

(7) it has been estimated that between 1,400,000 and 2,000,000 Americans have been diagnosed with the disease, and that many more have undiagnosed cases;

(8) current treatments for the disease can be effective, but may lead to damaging side effects;

(9) many victims of the disease suffer debilitating pain and fatigue, making it difficult to maintain employment and lead normal lives; and

(10) in fiscal year 1996, the amount allocated by the National Institutes of Health for research on lupus was \$33,000,000, which is less than one-half of 1 percent of the budget for such Institutes.

Subtitle A—Research on Lupus

SEC. 511. EXPANSION AND INTENSIFICATION OF ACTIVITIES.

Subpart 4 of part C of title IV of the Public Health Service Act (42 U.S.C. 285d et seq.) is amended by inserting after section 441 the following:

42 USC 285d-6a.

“SEC. 441A. (a) IN GENERAL.—The Director of the Institute shall expand and intensify research and related activities of the Institute with respect to lupus.

“(b) COORDINATION WITH OTHER INSTITUTES.—The Director of the Institute shall coordinate the activities of the Director under subsection (a) with similar activities conducted by the other national research institutes and agencies of the National Institutes of Health to the extent that such Institutes and agencies have responsibilities that are related to lupus.

“(c) PROGRAMS FOR LUPUS.—In carrying out subsection (a), the Director of the Institute shall conduct or support research to expand the understanding of the causes of, and to find a cure for, lupus. Activities under such subsection shall include conducting and supporting the following:

“(1) Research to determine the reasons underlying the elevated prevalence of lupus in women, including African-American women.

“(2) Basic research concerning the etiology and causes of the disease.

“(3) Epidemiological studies to address the frequency and natural history of the disease and the differences among the sexes and among racial and ethnic groups with respect to the disease.

“(4) The development of improved diagnostic techniques.

“(5) Clinical research for the development and evaluation of new treatments, including new biological agents.

“(6) Information and education programs for health care professionals and the public.

“(d) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out this section, there are authorized to be appropriated such sums as may be necessary for each of the fiscal years 2001 through 2003.”.

Subtitle B—Delivery of Services Regarding Lupus

SEC. 521. ESTABLISHMENT OF PROGRAM OF GRANTS.

42 USC 254c-9.

(a) **IN GENERAL.**—The Secretary of Health and Human Services shall in accordance with this subtitle make grants to provide for projects for the establishment, operation, and coordination of effective and cost-efficient systems for the delivery of essential services to individuals with lupus and their families.

(b) **RECIPIENTS OF GRANTS.**—A grant under subsection (a) may be made to an entity only if the entity is a public or nonprofit private entity, which may include a State or local government; a public or nonprofit private hospital, community-based organization, hospice, ambulatory care facility, community health center, migrant health center, or homeless health center; or other appropriate public or nonprofit private entity.

(c) **CERTAIN ACTIVITIES.**—To the extent practicable and appropriate, the Secretary shall ensure that projects under subsection (a) provide services for the diagnosis and disease management of lupus. Activities that the Secretary may authorize for such projects may also include the following:

(1) Delivering or enhancing outpatient, ambulatory, and home-based health and support services, including case management and comprehensive treatment services, for individuals with lupus; and delivering or enhancing support services for their families.

(2) The grant will be used to supplement and not supplant funds from other sources related to the treatment of lupus.

(3) The applicant will abide by any limitations deemed appropriate by the Secretary on any charges to individuals receiving services pursuant to the grant. As deemed appropriate by the Secretary, such limitations on charges may vary based on the financial circumstances of the individual receiving services.

(A) under any State compensation program, under an insurance policy, or under any Federal or State health benefits program; or

PUBLIC LAW 106-505—NOV. 13, 2000

(B) by an entity that provides health services on a prepaid basis.

(5) The applicant will, at each site at which the applicant provides services under section 521(a), post a conspicuous notice informing individuals who receive the services of any Federal policies that apply to the applicant with respect to the imposition of charges on such individuals.

42 USC 254c-11. **SEC. 523. TECHNICAL ASSISTANCE.**

The Secretary may provide technical assistance to assist entities in complying with the requirements of this subtitle in order to make such entities eligible to receive grants under section 521.

TITLE VII—ORGAN PROCUREMENT AND DONATION

Organ
Procurement
Organization
Certification Act
of 2000.

SEC. 701. ORGAN PROCUREMENT ORGANIZATION CERTIFICATION.

(a) SHORT TITLE.—This section may be cited as the “Organ Procurement Organization Certification Act of 2000”.

42 USC 201 note.

(b) FINDINGS.—Congress makes the following findings:

42 USC 273 note.

(1) Organ procurement organizations play an important role in the effort to increase organ donation in the United States.

(2) The current process for the certification and recertification of organ procurement organizations conducted by the Department of Health and Human Services has created a level of uncertainty that is interfering with the effectiveness of organ procurement organizations in raising the level of organ donation.

(3) The General Accounting Office, the Institute of Medicine, and the Harvard School of Public Health have identified substantial limitations in the organ procurement organization certification and recertification process and have recommended changes in that process.

(4) The limitations in the recertification process include:

(A) An exclusive reliance on population-based measures of performance that do not account for the potential in the population for organ donation and do not permit consideration of other outcome and process standards that would more accurately reflect the relative capability and performance of each organ procurement organization.

(B) A lack of due process to appeal to the Secretary of Health and Human Services for recertification on either substantive or procedural grounds.

(5) The Secretary of Health and Human Services has the authority under section 1138(b)(1)(A)(i) of the Social Security Act (42 U.S.C. 1320b-8(b)(1)(A)(i)) to extend the period for recertification of an organ procurement organization from 2

PUBLIC LAW 106-505—NOV. 13, 2000

to 4 years on the basis of its past practices in order to avoid the inappropriate disruption of the nation's organ system.

(6) The Secretary of Health and Human Services can use the extended period described in paragraph (5) for recertification of all organ procurement organizations to—

(A) develop improved performance measures that would reflect organ donor potential and interim outcomes, and to test these measures to ensure that they accurately measure performance differences among the organ procurement organizations; and

(B) improve the overall certification process by incorporating process as well as outcome performance measures, and developing equitable processes for appeals.

(c) CERTIFICATION AND RECERTIFICATION OF ORGAN PROCUREMENT ORGANIZATIONS.—Section 371(b)(1) of the Public Health Service Act (42 U.S.C. 273(b)(1)) is amended—

(1) by redesignating subparagraphs (D) through (G) as subparagraphs (E) through (H), respectively;

(2) by realigning the margin of subparagraph (F) (as so redesignated) so as to align with subparagraph (E) (as so redesignated); and

(3) by inserting after subparagraph (C) the following:

“(D) notwithstanding any other provision of law, has met the other requirements of this section and has been certified or recertified by the Secretary within the previous 4-year period as meeting the performance standards to be a qualified organ procurement organization through a process that either—

“(i) granted certification or recertification within such 4-year period with such certification or recertification in effect as of January 1, 2000, and remaining in effect through the earlier of—

“(I) January 1, 2002; or

“(II) the completion of recertification under the requirements of clause (ii); or

“(ii) is defined through regulations that are promulgated by the Secretary by not later than January 1, 2002, that—

“(I) require recertifications of qualified organ procurement organizations not more frequently than once every 4 years;

“(II) rely on outcome and process performance measures that are based on empirical evidence, obtained through reasonable efforts, of organ donor potential and other related factors in each service area of qualified organ procurement organizations;

“(III) use multiple outcome measures as part of the certification process; and

“(IV) provide for a qualified organ procurement organization to appeal a decertification to the Secretary on substantive and procedural grounds;”.

Deadline.

SEC. 702. DESIGNATION OF GIVE THANKS, GIVE LIFE DAY.

(a) FINDINGS.—Congress finds that—

(1) traditionally, Thanksgiving is a time for families to take time out of their busy lives to come together and to give thanks for the many blessings in their lives;

(2) approximately 21,000 men, women, and children in the United States are given the gift of life each year through transplantation surgery, made possible by the generosity of organ and tissue donations;

(3) more than 66,000 Americans are awaiting their chance to prolong their lives by finding a matching donor;

(4) nearly 5,000 of these patients each year (or 13 patients each day) die while waiting for a donated heart, liver, kidney, or other organ;

PUBLIC LAW 106-505—NOV. 13, 2000

(5) nationwide there are up to 15,000 potential donors annually, but families' consent to donation is received for less than 6,000;

(6) the need for organ donations greatly exceeds the supply available;

(7) designation as an organ donor on a driver's license or voter's registration is a valuable step, but does not ensure donation when an occasion arises;

(8) the demand for transplantation will likely increase in the coming years due to the growing safety of transplantation surgery due to improvements in technology and drug developments, prolonged life expectancy, and increased prevalence of diseases that may lead to organ damage and failure, including hypertension, alcoholism, and hepatitis C infection;

(9) the need for a more diverse donor pool, including a variety of racial and ethnic minorities, will continue to grow in the coming years;

(10) the final decision on whether a potential donor can share the gift of life usually is made by surviving family members regardless of the patient's initial intent;

(11) many Americans have indicated a willingness to donate their organs and tissues but have not discussed this critical matter with the family members who are most likely to make the decision, if the occasion arises, as to whether that person will be an organ and tissue donor;

(12) some family members may be reluctant to give consent to donate their deceased loved one's organs and tissues at a very difficult and emotional time if that person has not clearly expressed a desire or willingness to do so;

(13) the vast majority of Americans are likely to spend part of Thanksgiving Day with some of those family members who would be approached to make such a decision; and

(14) it is fitting for families to spend a portion of that day discussing how they might give life to others on a day devoted to giving thanks for their own blessings.

(b) DESIGNATION.—November 23, 2000, Thanksgiving Day, is hereby designated as a day to “Give Thanks, Give Life” and to discuss organ and tissue donation with other family members so that informed decisions can be made if the occasion to donate arises.

SEC. 2. FINDINGS.

The Congress finds as follows:

(1) Despite notable progress in the overall health of the Nation, there are continuing disparities in the burden of illness and death experienced by African Americans, Hispanics, Native Americans, Alaska Natives, and Asian Pacific Islanders, compared to the United States population as a whole.

(2) The largest numbers of the medically underserved are white individuals, and many of them have the same health care access problems as do members of minority groups. Nearly 20,000,000 white individuals live below the poverty line with

PUBLIC LAW 106-525—NOV. 22, 2000

many living in nonmetropolitan, rural areas such as Appalachia, where the high percentage of counties designated as health professional shortage areas (47 percent) and the high rate of poverty contribute to disparity outcomes. However, there is a higher proportion of racial and ethnic minorities in the United States represented among the medically underserved.

(3) There is a national need for minority scientists in the fields of biomedical, clinical, behavioral, and health services research. Ninety percent of minority physicians educated at Historically Black Medical Colleges live and serve in minority communities.

(4) Demographic trends inspire concern about the Nation's ability to meet its future scientific, technological, and engineering workforce needs. Historically, non-Hispanic white males have made up the majority of the United States scientific, technological, and engineering workers.

(5) The Hispanic and Black population will increase significantly in the next 50 years. The scientific, technological, and engineering workforce may decrease if participation by underrepresented minorities remains the same.

(6) Increasing rates of Black and Hispanic workers can help ensure a strong scientific, technological, and engineering workforce.

(7) Individuals such as underrepresented minorities and women in the scientific, technological, and engineering workforce enable society to address its diverse needs.

(8) If there had not been a substantial increase in the number of science and engineering degrees awarded to women and underrepresented minorities over the past few decades, the United States would be facing even greater shortages in scientific, technological, and engineering workers.

(9) In order to effectively promote a diverse and strong 21st century scientific, technological, and engineering workforce, Federal agencies should expand or add programs that effectively overcome barriers such as educational transition from one level to the next and student requirements for financial resources.

(10) Federal agencies should work in concert with the private nonprofit sector to emphasize the recruitment and retention of qualified individuals from ethnic and gender groups that are currently underrepresented in the scientific, technological, and engineering workforce.

(11) Behavioral and social sciences research has increased awareness and understanding of factors associated with health care utilization and access, patient attitudes toward health services, and risk and protective behaviors that affect health and illness. These factors have the potential to then be modified to help close the health disparities gap among ethnic minority populations. In addition, there is a shortage of minority behavioral science researchers and behavioral health care professionals. According to the National Science Foundation, only 15.5 percent of behavioral research-oriented psychology doctorate degrees were awarded to minority students in 1997. In addition, only 17.9 percent of practice-oriented psychology doctorate degrees were awarded to ethnic minorities.

PUBLIC LAW 106-580—DEC. 29, 2000

Public Law 106-580
106th Congress

An Act

To amend the Public Health Service Act to establish the National Institute of Biomedical Imaging and Bioengineering.

Dec. 29, 2000

[H.R. 1795]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “National Institute of Biomedical Imaging and Bioengineering Establishment Act”.

SEC. 2. FINDINGS.

The Congress makes the following findings:

(1) Basic research in imaging, bioengineering, computer science, informatics, and related fields is critical to improving health care but is fundamentally different from the research in molecular biology on which the current national research institutes at the National Institutes of Health (“NIH”) are based. To ensure the development of new techniques and technologies for the 21st century, these disciplines therefore require an identity and research home at the NIH that is independent of the existing institute structure.

(2) Advances based on medical research promise new, more effective treatments for a wide variety of diseases, but the development of new, noninvasive imaging techniques for earlier detection and diagnosis of disease is essential to take full advantage of such new treatments and to promote the general improvement of health care.

(3) The development of advanced genetic and molecular imaging techniques is necessary to continue the current rapid pace of discovery in molecular biology.

(4) Advances in telemedicine, and teleradiology in particular, are increasingly important in the delivery of high quality, reliable medical care to rural citizens and other underserved populations. To fulfill the promise of telemedicine and related technologies fully, a structure is needed at the NIH to support basic research focused on the acquisition, transmission, processing, and optimal display of images.

(5) A number of Federal departments and agencies support imaging and engineering research with potential medical applications, but a central coordinating body, preferably housed at the NIH, is needed to coordinate these disparate efforts and facilitate the transfer of technologies with medical applications.

(6) Several breakthrough imaging technologies, including magnetic resonance imaging (“MRI”) and computed tomography (“CT”), have been developed primarily abroad, in large part because of the absence of a home at the NIH for basic research in imaging and related fields. The establishment of a central focus for imaging and bioengineering research at the NIH would promote both scientific advance and United States economic development.

(7) At a time when a consensus exists to add significant resources to the NIH in coming years, it is appropriate to modernize the structure of the NIH to ensure that research dollars are expended more effectively and efficiently and that

the fields of medical science that have contributed the most to the detection, diagnosis, and treatment of disease in recent years receive appropriate emphasis.

(8) The establishment of a National Institute of Biomedical Imaging and Bioengineering at the NIH would accelerate the development of new technologies with clinical and research applications, improve coordination and efficiency at the NIH and throughout the Federal Government, reduce duplication and waste, lay the foundation for a new medical information age, promote economic development, and provide a structure to train the young researchers who will make the pathbreaking discoveries of the next century.

SEC. 3. ESTABLISHMENT OF NATIONAL INSTITUTE OF BIOMEDICAL IMAGING AND BIOENGINEERING.

(a) IN GENERAL.—Part C of title IV of the Public Health Service Act (42 U.S.C. 285 et seq.) is amended by adding at the end the following subpart:

“(d)(1) Subject to paragraph (2), for the purpose of carrying out this section:

“(A) For fiscal year 2001, there is authorized to be appropriated an amount equal to the amount obligated by the National Institutes of Health during fiscal year 2000 for biomedical imaging and bioengineering, except that such amount shall be adjusted to offset any inflation occurring after October 1, 1999.

“(B) For each of the fiscal years 2002 and 2003, there is authorized to be appropriated an amount equal to the amount appropriated under subparagraph (A) for fiscal year 2001, except that such amount shall be adjusted for the fiscal year involved to offset any inflation occurring after October 1, 2000.

“(2) The authorization of appropriations for a fiscal year under paragraph (1) is hereby reduced by the amount of any appropriation made for such year for the conduct or support by any other national research institute of any program with respect to biomedical imaging and bioengineering.”

(b) **USE OF EXISTING RESOURCES.**—In providing for the establishment of the National Institute of Biomedical Imaging and Bioengineering pursuant to the amendment made by subsection (a), the Director of the National Institutes of Health (referred to in this subsection as “NIH”)—

Subtitle B—Native Hawaiian Housing

SEC. 511. SHORT TITLE.

This subtitle may be cited as the “Hawaiian Homelands Homeownership Act of 2000”.

SEC. 512. FINDINGS.

The Congress finds that—

(1) the United States has undertaken a responsibility to promote the general welfare of the United States by—

(A) employing its resources to remedy the unsafe and unsanitary housing conditions and the acute shortage of decent, safe, and sanitary dwellings for families of lower income; and

(B) developing effective partnerships with governmental and private entities to accomplish the objectives referred to in subparagraph (A);

(2) the United States has a special responsibility for the welfare of the Native peoples of the United States, including Native Hawaiians;

(3) pursuant to the provisions of the Hawaiian Homes Commission Act, 1920 (42 Stat. 108 et seq.), the United States set aside 200,000 acres of land in the Federal territory that later became the State of Hawaii in order to establish a homeland for the native people of Hawaii—Native Hawaiians;

(4) despite the intent of Congress in 1920 to address the housing needs of Native Hawaiians through the enactment of the Hawaiian Homes Commission Act, 1920 (42 Stat. 108

Hawaiian
Homelands
Homeownership
Act of 2000.

note.

note.

PUBLIC LAW 106-569—DEC. 27, 2000

et seq.), Native Hawaiians eligible to reside on the Hawaiian home lands have been foreclosed from participating in Federal housing assistance programs available to all other eligible families in the United States;

(5) although Federal housing assistance programs have been administered on a racially neutral basis in the State of Hawaii, Native Hawaiians continue to have the greatest unmet need for housing and the highest rates of overcrowding in the United States;

(6) among the Native American population of the United States, Native Hawaiians experience the highest percentage of housing problems in the United States, as the percentage—

(A) of housing problems in the Native Hawaiian population is 49 percent, as compared to—

(i) 44 percent for American Indian and Alaska Native households in Indian country; and

(ii) 27 percent for all other households in the United States; and

(B) overcrowding in the Native Hawaiian population is 36 percent as compared to 3 percent for all other households in the United States;

(7) among the Native Hawaiian population, the needs of Native Hawaiians, as that term is defined in section 801 of the Native American Housing Assistance and Self-Determination Act of 1996 (as added by this subtitle), eligible to reside on the Hawaiian Home Lands are the most severe, as—

(A) the percentage of overcrowding in Native Hawaiian households on the Hawaiian Home Lands is 36 percent; and

(B) approximately 13,000 Native Hawaiians, which constitute 95 percent of the Native Hawaiians who are eligible to reside on the Hawaiian Home Lands, are in need of housing;

(8) applying the Department of Housing and Urban Development guidelines—

(A) 70.8 percent of Native Hawaiians who either reside or who are eligible to reside on the Hawaiian Home Lands have incomes that fall below the median family income; and

(B) 50 percent of Native Hawaiians who either reside or who are eligible to reside on the Hawaiian Home Lands have incomes below 30 percent of the median family income;

(9) one-third of those Native Hawaiians who are eligible to reside on the Hawaiian Home Lands pay more than 30 percent of their income for shelter, and one-half of those Native Hawaiians face overcrowding;

(10) the extraordinarily severe housing needs of Native Hawaiians demonstrate that Native Hawaiians who either reside on, or are eligible to reside on, Hawaiian Home Lands have been denied equal access to Federal low-income housing assistance programs available to other qualified residents of the United States, and that a more effective means of addressing their housing needs must be authorized;

(11) consistent with the recommendations of the National Commission on American Indian, Alaska Native, and Native Hawaiian Housing, and in order to address the continuing prevalence of extraordinarily severe housing needs among Native Hawaiians who either reside or are eligible to reside on the Hawaiian Home Lands, Congress finds it necessary to extend the Federal low-income housing assistance available to American Indians and Alaska Natives under the Native American Housing Assistance and Self-Determination Act of 1996 (25 U.S.C. 4101 et seq.) to those Native Hawaiians;

PUBLIC LAW 106-569—DEC. 27, 2000

(12) under the treaty-making power of the United States, Congress had the constitutional authority to confirm a treaty between the United States and the government that represented the Hawaiian people, and from 1826 until 1893, the United States recognized the independence of the Kingdom of Hawaii, extended full diplomatic recognition to the Hawaiian Government, and entered into treaties and conventions with the Hawaiian monarchs to govern commerce and navigation in 1826, 1842, 1849, 1875, and 1887;

(13) the United States has recognized and reaffirmed that—

(A) Native Hawaiians have a cultural, historic, and land-based link to the indigenous people who exercised sovereignty over the Hawaiian Islands, and that group has never relinquished its claims to sovereignty or its sovereign lands;

(B) Congress does not extend services to Native Hawaiians because of their race, but because of their unique status as the indigenous people of a once sovereign nation as to whom the United States has established a trust relationship;

(C) Congress has also delegated broad authority to administer a portion of the Federal trust responsibility to the State of Hawaii;

(D) the political status of Native Hawaiians is comparable to that of American Indians and Alaska Natives; and

(E) the aboriginal, indigenous people of the United States have—

(i) a continuing right to autonomy in their internal affairs; and

(ii) an ongoing right of self-determination and self-governance that has never been extinguished;

(14) the political relationship between the United States and the Native Hawaiian people has been recognized and reaffirmed by the United States as evidenced by the inclusion of Native Hawaiians in—

(A) the Native American Programs Act of 1974 (42 U.S.C. 2291 et seq.);

(B) the American Indian Religious Freedom Act (42 U.S.C. 1996 et seq.);

(C) the National Museum of the American Indian Act (20 U.S.C. 80q et seq.);

(D) the Native American Graves Protection and Repatriation Act (25 U.S.C. 3001 et seq.);

(E) the National Historic Preservation Act (16 U.S.C. 470 et seq.);

(F) the Native American Languages Act of 1992 (106 Stat. 3434);

(G) the American Indian, Alaska Native and Native Hawaiian Culture and Arts Development Act (20 U.S.C. 4401 et seq.);

(H) the Job Training Partnership Act (29 U.S.C. 1501 et seq.); and

(I) the Older Americans Act of 1965 (42 U.S.C. 3001 et seq.); and

(15) in the area of housing, the United States has recognized and reaffirmed the political relationship with the Native Hawaiian people through—

(A) the enactment of the Hawaiian Homes Commission Act, 1920 (42 Stat. 108 et seq.), which set aside approximately 200,000 acres of public lands that became known as Hawaiian Home Lands in the Territory of Hawaii that had been ceded to the United States for homesteading by Native Hawaiians in order to rehabilitate a landless and dying people;

PUBLIC LAW 106-569—DEC. 27, 2000

(B) the enactment of the Act entitled “An Act to provide for the admission of the State of Hawaii into the Union”, approved March 18, 1959 (73 Stat. 4)—

(i) by ceding to the State of Hawaii title to the public lands formerly held by the United States, and mandating that those lands be held in public trust, for the betterment of the conditions of Native Hawaiians, as that term is defined in section 201 of the Hawaiian Homes Commission Act, 1920 (42 Stat. 108 et seq.); and

(ii) by transferring the United States responsibility for the administration of Hawaiian Home Lands to the State of Hawaii, but retaining the authority to enforce the trust, including the exclusive right of the United States to consent to any actions affecting the lands which comprise the corpus of the trust and any amendments to the Hawaiian Homes Commission Act, 1920 (42 Stat. 108 et seq.), enacted by the legislature of the State of Hawaii affecting the rights of beneficiaries under the Act;

(C) the authorization of mortgage loans insured by the Federal Housing Administration for the purchase, construction, or refinancing of homes on Hawaiian Home Lands under the National Housing Act (Public Law 479; 73d Congress; 12 U.S.C. 1701 et seq.);

(D) authorizing Native Hawaiian representation on the National Commission on American Indian, Alaska Native, and Native Hawaiian Housing under Public Law 101-235;

(E) the inclusion of Native Hawaiians in the definition under section 3764 of title 38, United States Code, applicable to subchapter V of chapter 37 of title 38, United States Code (relating to a housing loan program for Native American veterans); and

(F) the enactment of the Hawaiian Home Lands Recovery Act (109 Stat. 357; 48 U.S.C. 491, note prec.) which establishes a process for the conveyance of Federal lands to the Department of Hawaiian Homes Lands that are equivalent in value to lands acquired by the United States from the Hawaiian Home Lands inventory.

Congress finds that—

(1) there are major deficiencies with regard to adequate and sufficient water supplies available to residents of the Jicarilla Apache Reservation in the State of New Mexico;

(4) the federally owned municipal water system that serves the Jicarilla Apache Reservation has been cited by the United States Environmental Protection Agency for violations of Federal safe drinking water standards and poses a threat to public health and safety both on and off the Jicarilla Apache Reservation;

(5) the lack of reliable supplies of potable water impedes economic development and has detrimental effects on the quality of life and economic self-sufficiency of the Jicarilla Apache Tribe;

(6) due to the severe health threats and impediments to economic development, the Jicarilla Apache Tribe has authorized and expended \$4,500,000 of tribal funds for the repair and replacement of the municipal water system on the Jicarilla Apache Reservation; and

Congress finds that—

(1) of the nearly 800 bird species known to occur in the United States, approximately 500 migrate among countries, and the large majority of those species, the neotropical migrants, winter in Latin America and the Caribbean;

(3)(A) many neotropical migratory bird populations, once considered common, are in decline, and some have declined to the point that their long-term survival in the wild is in jeopardy; and

Public Law 106-248 106th Congress

An Act

July 25, 2000
[S. 1892]

To authorize the acquisition of the Valles Caldera, to provide for an effective land and wildlife management program for this resource within the Department of Agriculture, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Valles Caldera
Preservation Act.
New Mexico

TITLE I—VALLES CALDERA NATIONAL PRESERVE AND TRUST

16 USC 698v
note.

SEC. 101. SHORT TITLE.

This title may be cited as the “Valles Caldera Preservation Act”.

16 USC 698v.

SEC. 102. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) the Baca ranch comprises most of the Valles Caldera in central New Mexico, and constitutes a unique land mass, with significant scientific, cultural, historic, recreational, ecological, wildlife, fisheries, and productive values;

(2) the Valles Caldera is a large resurgent lava dome with potential geothermal activity;

(3) the land comprising the Baca ranch was originally granted to the heirs of Don Luis Maria Cabeza de Vaca in 1860;

(4) historical evidence, in the form of old logging camps and other artifacts, and the history of territorial New Mexico indicate the importance of this land over many generations for domesticated livestock production and timber supply;

(5) the careful husbandry of the Baca ranch by the current owners, including selective timbering, limited grazing and hunting, and the use of prescribed fire, have preserved a mix of healthy range and timber land with significant species diversity, thereby serving as a model for sustainable land development and use;

(6) the Baca ranch's natural beauty and abundant resources, and its proximity to large municipal populations, could provide numerous recreational opportunities for hiking, fishing, camping, cross-country skiing, and hunting;

(7) the Forest Service documented the scenic and natural values of the Baca ranch in its 1993 study entitled “Report on the Study of the Baca Location No. 1, Santa Fe National Forest, New Mexico”, as directed by Public Law 101-556;

(8) the Baca ranch can be protected for current and future generations by continued operation as a working ranch under a unique management regime which would protect the land and resource values of the property and surrounding ecosystem while allowing and providing for the ranch to eventually become financially self-sustaining;

(9) the current owners have indicated that they wish to sell the Baca ranch, creating an opportunity for Federal acquisition and public access and enjoyment of these lands;

(10) certain features on the Baca ranch have historical and religious significance to Native Americans which can be

PUBLIC LAW 106-248—JULY 25, 2000

preserved and protected through Federal acquisition of the property;

(11) the unique nature of the Valles Caldera and the potential uses of its resources with different resulting impacts warrants a management regime uniquely capable of developing an operational program for appropriate preservation and development of the land and resources of the Baca ranch in the interest of the public;

(12) an experimental management regime should be provided by the establishment of a Trust capable of using new methods of public land management that may prove to be cost-effective and environmentally sensitive; and

(13) the Secretary may promote more efficient management of the Valles Caldera and the watershed of the Santa Clara Creek through the assignment of purchase rights of such watershed to the Pueblo of Santa Clara.

(b) PURPOSES.—The purposes of this title are—

(1) to authorize Federal acquisition of the Baca ranch;

(2) to protect and preserve for future generations the scientific, scenic, historic, and natural values of the Baca ranch, including rivers and ecosystems and archaeological, geological, and cultural resources;

(3) to provide opportunities for public recreation;

(4) to establish a demonstration area for an experimental management regime adapted to this unique property which incorporates elements of public and private administration in order to promote long term financial sustainability consistent with the other purposes enumerated in this subsection; and

(5) to provide for sustained yield management of Baca ranch for timber production and domesticated livestock grazing insofar as is consistent with the other purposes stated herein.

TITLE II—FEDERAL LAND TRANSACTION FACILITATION

Federal Land
Transaction
Facilitation Act.

SEC. 201. SHORT TITLE.

This title may be cited as the “Federal Land Transaction Facilitation Act”.

43 USC 2301
note.

SEC. 202. FINDINGS.

43 USC 2301.

Congress finds that—

(1) the Bureau of Land Management has authority under the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.) to sell land identified for disposal under its land use planning;

(2) the Bureau of Land Management has authority under that Act to exchange Federal land for non-Federal land if the exchange would be in the public interest;

(3) through land use planning under that Act, the Bureau of Land Management has identified certain tracts of public land for disposal;

(4) the Federal land management agencies of the Departments of the Interior and Agriculture have authority under existing law to acquire land consistent with the mission of each agency;

(5) the sale or exchange of land identified for disposal and the acquisition of certain non-Federal land from willing landowners would—

(A) allow for the reconfiguration of land ownership patterns to better facilitate resource management;

(B) contribute to administrative efficiency within Federal land management units; and

(C) allow for increased effectiveness of the allocation of fiscal and human resources within the Federal land management agencies;

(6) a more expeditious process for disposal and acquisition of land, established to facilitate a more effective configuration of land ownership patterns, would benefit the public interest;

(7) many private individuals own land within the boundaries of Federal land management units and desire to sell the land to the Federal Government;

(8) such land lies within national parks, national monuments, national wildlife refuges, national forests, and other areas designated for special management;

(9) Federal land management agencies are facing increased workloads from rapidly growing public demand for the use of public land, making it difficult for Federal managers to address problems created by the existence of inholdings in many areas;

(10) in many cases, inholders and the Federal Government would mutually benefit from Federal acquisition of the land on a priority basis;

(11) proceeds generated from the disposal of public land may be properly dedicated to the acquisition of inholdings and other land that will improve the resource management ability of the Federal land management agencies and adjoining landowners;

(12) using proceeds generated from the disposal of public land to purchase inholdings and other such land from willing

PUBLIC LAW 106-248—JULY 25, 2000

sellers would enhance the ability of the Federal land management agencies to—

(A) work cooperatively with private landowners and State and local governments; and

(B) promote consolidation of the ownership of public and private land in a manner that would allow for better overall resource management;

(13) in certain locations, the sale of public land that has been identified for disposal is the best way for the public to receive fair market value for the land; and

(14) to allow for the least disruption of existing land and resource management programs, the Bureau of Land Management may use non-Federal entities to prepare appraisal documents for agency review and approval consistent with applicable provisions of the Uniform Standards for Federal Land Acquisition.

Public Law 106-257
106th Congress

An Act

To provide for the exchange of certain land in the State of Oregon.

Aug. 8, 2000
[S. 1629]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Oregon Land Exchange Act of 2000”.

Oregon Land
Exchange Act of
2000.

SEC. 2. FINDINGS.

Congress finds that—

(1) certain parcels of private land located in northeast Oregon are intermingled with land owned by the United States and administered—

(A) by the Secretary of the Interior as part of the Central Oregon Resource Area in the Prineville Bureau of Land Management District and the Baker Resource Area in the Vale Bureau of Land Management District; and

(B) by the Secretary of Agriculture as part of the Malheur National Forest, the Wallowa-Whitman National Forest, and the Umatilla National Forest;

(2) the surface estate of the private land described in paragraph (1) is intermingled with parcels of land that are owned by the United States or contain valuable fisheries and wildlife habitat desired by the United States;

(3) the consolidation of land ownerships will facilitate sound and efficient management for both public and private lands;

(4) the improvement of management efficiency through the land tenure adjustment program of the Department of the Interior, which disposes of small isolated tracts having low public resource values within larger blocks of contiguous parcels of land, would serve important public objectives, including—

(A) the enhancement of public access, aesthetics, and recreation opportunities within or adjacent to designated wild and scenic river corridors;

(B) the protection and enhancement of habitat for threatened, endangered, and sensitive species within unified landscapes under Federal management; and

(C) the consolidation of holdings of the Bureau of Land Management and the Forest Service—

(i) to facilitate more efficient administration, including a reduction in administrative costs to the United States; and

(ii) to reduce right-of-way, special use, and other permit processing and issuance for roads and other facilities on Federal land;

(5) time is of the essence in completing a land exchange because further delays may force the identified landowners to construct roads in, log, develop, or sell the private land and thereby diminish the public values for which the private land is to be acquired; and

(6) it is in the public interest to complete the land exchanges at the earliest practicable date so that the land acquired by the United States can be preserved for—

PUBLIC LAW 106-260—AUG. 18, 2000

Public Law 106-260 106th Congress

An Act

To amend the Indian Self-Determination and Education Assistance Act to provide for further self-governance by Indian tribes, and for other purposes.

Aug. 18, 2000
[H.R. 1167]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Tribal Self-Governance Amendments of 2000”.

Tribal Self-Governance Amendments of 2000.
25 USC 450 note.

SEC. 2. FINDINGS.

Congress finds that—

(1) the tribal right of self-government flows from the inherent sovereignty of Indian tribes and nations;

(2) the United States recognizes a special government-to-government relationship with Indian tribes, including the right of the Indian tribes to self-governance, as reflected in the Constitution, treaties, Federal statutes, and the course of dealings of the United States with Indian tribes;

(3) although progress has been made, the Federal bureaucracy, with its centralized rules and regulations, has eroded tribal self-governance and dominates tribal affairs;

(4) the Tribal Self-Governance Demonstration Project, established under title III of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450f note) was designed to improve and perpetuate the government-to-government relationship between Indian tribes and the United States and to strengthen tribal control over Federal funding and program management;

(5) although the Federal Government has made considerable strides in improving Indian health care, it has failed to fully meet its trust responsibilities and to satisfy its obligations to the Indian tribes under treaties and other laws; and

(6) Congress has reviewed the results of the Tribal Self-Governance Demonstration Project and finds that transferring full control and funding to tribal governments, upon tribal request, over decision making for Federal programs, services, functions, and activities (or portions thereof)—

(A) is an appropriate and effective means of implementing the Federal policy of government-to-government relations with Indian tribes; and

(B) strengthens the Federal policy of Indian self-determination.

25 USC 458aaa note.

SEC. 3. DECLARATION OF POLICY.

It is the policy of Congress—

(1) to permanently establish and implement tribal self-governance within the Department of Health and Human Services;

(2) to call for full cooperation from the Department of Health and Human Services and its constituent agencies in the implementation of tribal self-governance—

(A) to enable the United States to maintain and improve its unique and continuing relationship with, and responsibility to, Indian tribes;

25 USC 458aaa note.

PUBLIC LAW 106-260—AUG. 18, 2000

(B) to permit each Indian tribe to choose the extent of its participation in self-governance in accordance with the provisions of the Indian Self-Determination and Education Assistance Act relating to the provision of Federal services to Indian tribes;

(C) to ensure the continuation of the trust responsibility of the United States to Indian tribes and Indian individuals;

(D) to affirm and enable the United States to fulfill its obligations to the Indian tribes under treaties and other laws;

(E) to strengthen the government-to-government relationship between the United States and Indian tribes through direct and meaningful consultation with all tribes;

(F) to permit an orderly transition from Federal domination of programs and services to provide Indian tribes with meaningful authority, control, funding, and discretion to plan, conduct, redesign, and administer programs, services, functions, and activities (or portions thereof) that meet the needs of the individual tribal communities;

(G) to provide for a measurable parallel reduction in the Federal bureaucracy as programs, services, functions, and activities (or portion thereof) are assumed by Indian tribes;

(H) to encourage the Secretary to identify all programs, services, functions, and activities (or portions thereof) of the Department of Health and Human Services that may be managed by an Indian tribe under this Act and to assist Indian tribes in assuming responsibility for such programs, services, functions, and activities (or portions thereof); and

(I) to provide Indian tribes with the earliest opportunity to administer programs, services, functions, and activities (or portions thereof) from throughout the Department of Health and Human Services.

“(f) RETROCESSION.—An Indian tribe may retrocede, fully or partially, to the Secretary programs, services, functions, or activities (or portions thereof) included in the compact or funding agreement. Unless the Indian tribe rescinds the request for retrocession, such retrocession will become effective within the timeframe specified by the parties in the compact or funding agreement. “(B) the funds referred to in subparagraph (A) shall be transferred from the funding agreement of the inter-tribal consortium or tribal organization, on the condition that the provisions of sections 102 and 105(i), as appropriate, shall apply to that withdrawing Indian tribe.

“(3) REGAINING MATURE CONTRACT STATUS.—If an Indian tribe elects to operate all or some programs, services, functions, or activities (or portions thereof) carried out under a compact or funding agreement under this title through a self-determination contract under title I, at the option of the Indian tribe, the resulting self-determination contract shall be a mature self-determination contract.

“(II) the endangerment arises out of a failure to carry out the compact or funding agreement.

“(ii) REASSUMPTION.—If the Secretary reassumes operation of a program, service, function, or activity (or portion thereof) under this subparagraph, the Secretary shall provide the Indian tribe with a hearing on the record not later than 10 days after such re-assumption. Deadline.

“(D) HEARINGS.—In any hearing or appeal involving a decision to reassume operation of a program, service, function, or activity (or portion thereof), the Secretary shall have the burden of proof of demonstrating by clear and convincing evidence the validity of the grounds for the reassumption.

“(b) FINAL OFFER.—In the event the Secretary and a participating Indian tribe are unable to agree, in whole or in part, on the terms of a compact or funding agreement (including funding levels), the Indian tribe may submit a final offer to the Secretary. Not more than 45 days after such submission, or within a longer time agreed upon by the Indian tribe, the Secretary shall review and make a determination with respect to such offer. In the absence of a timely rejection of the offer, in whole or in part, made in compliance with subsection (c), the offer shall be deemed agreed to by the Secretary. Deadline.

“(c) REJECTION OF FINAL OFFERS.—

“(1) IN GENERAL.—If the Secretary rejects an offer made under subsection (b) (or one or more provisions or funding levels in such offer), the Secretary shall provide—

“(A) a timely written notification to the Indian tribe that contains a specific finding that clearly demonstrates, or that is supported by a controlling legal authority, that—

“(i) the amount of funds proposed in the final offer exceeds the applicable funding level to which the Indian tribe is entitled under this title;

“(ii) the program, function, service, or activity (or portion thereof) that is the subject of the final offer

PUBLIC LAW 106-260—AUG. 18, 2000

is an inherent Federal function that cannot legally be delegated to an Indian tribe;

“(iv) the Indian tribe is not eligible to participate in self-governance under section 503;

“(B) technical assistance to overcome the objections stated in the notification required by subparagraph (A);

“(C) the Indian tribe with a hearing on the record with the right to engage in full discovery relevant to any issue raised in the matter and the opportunity for appeal on the objections raised, except that the Indian tribe may, in lieu of filing such appeal, directly proceed to initiate an action in a Federal district court pursuant to section 110(a); and

“(D) the Indian tribe with the option of entering into the severable portions of a final proposed compact or funding agreement, or provision thereof, (including a lesser funding amount, if any), that the Secretary did not reject, subject to any additional alterations necessary to conform the compact or funding agreement to the severed provisions.

“(2) EFFECT OF EXERCISING CERTAIN OPTION.—If an Indian tribe exercises the option specified in paragraph (1)(D), that Indian tribe shall retain the right to appeal the Secretary's rejection under this section, and subparagraphs (A), (B), and (C) of that paragraph shall only apply to that portion of the proposed final compact, funding agreement, or provision thereof that was rejected by the Secretary.

“(d) BURDEN OF PROOF.—With respect to any hearing or appeal or civil action conducted pursuant to this section, the Secretary shall have the burden of demonstrating by clear and convincing evidence the validity of the grounds for rejecting the offer (or a provision thereof) made under subsection (b).

“(e) GOOD FAITH.—In the negotiation of compacts and funding agreements the Secretary shall at all times negotiate in good faith to maximize implementation of the self-governance policy. The Secretary shall carry out this title in a manner that maximizes the policy of tribal self-governance, in a manner consistent with the purposes specified in section 3 of the Tribal Self-Governance Amendments of 2000.

“(f) SAVINGS.—To the extent that programs, functions, services, or activities (or portions thereof) carried out by Indian tribes under this title reduce the administrative or other responsibilities of the Secretary with respect to the operation of Indian programs and result in savings that have not otherwise been included in the amount of tribal shares and other funds determined under section 508(c), the Secretary shall make such savings available to the Indian tribes, inter-tribal consortia, or tribal organizations for the provision of additional services to program beneficiaries in a manner equitable to directly served, contracted, and compacted programs.

In any instance where a funding agreement requires an annual transfer of funding to be made at the beginning of a fiscal year, or requires semiannual or other periodic transfers of funding to be made commencing at the beginning of a fiscal year, the first such transfer shall be made not later than 10 days after the apportionment of such funds by the Office of Management and Budget to the Department, unless the funding agreement provides otherwise.

“(b) **MULTIYEAR FUNDING.**—The Secretary is authorized to employ, upon tribal request, multiyear funding agreements. References in this title to funding agreements shall include such multiyear funding agreements.

“(d) **PROHIBITIONS.**—

“(1) **IN GENERAL.**—Except as provided in paragraph (2), the Secretary is expressly prohibited from—

“(A) failing or refusing to transfer to an Indian tribe its full share of any central, headquarters, regional, area, or service unit office or other funds due under this Act, except as required by Federal law;

“(B) withholding portions of such funds for transfer over a period of years; and

“(C) reducing the amount of funds required under this Act—

PUBLIC LAW 106-260—AUG. 18, 2000

“(iv) to pay for costs of Federal personnel displaced by self-determination contracts under this Act or self-governance;

“(2) EXCEPTION.—The funds described in paragraph (1)(C) may be increased by the Secretary if necessary to carry out this Act or as provided in section 105(c)(2).

“(e) OTHER RESOURCES.—In the event an Indian tribe elects to carry out a compact or funding agreement with the use of Federal personnel, Federal supplies (including supplies available from Federal warehouse facilities), Federal supply sources (including lodging, airline transportation, and other means of transportation including the use of interagency motor pool vehicles) or other Federal resources (including supplies, services, and resources available to the Secretary under any procurement contracts in which the Department is eligible to participate), the Secretary shall acquire and transfer such personnel, supplies, or resources to the Indian tribe.

“(f) REIMBURSEMENT TO INDIAN HEALTH SERVICE.—With respect to functions transferred by the Indian Health Service to an Indian tribe, the Indian Health Service shall provide goods and services to the Indian tribe, on a reimbursable basis, including payment in advance with subsequent adjustment. The reimbursements received from those goods and services, along with the funds received from the Indian tribe pursuant to this title, may be credited to the same or subsequent appropriation account which provided the funding, such amounts to remain available until expended.

Applicability.

“(g) PROMPT PAYMENT ACT.—Chapter 39 of title 31, United States Code, shall apply to the transfer of funds due under a compact or funding agreement authorized under this title.

“(h) INTEREST OR OTHER INCOME ON TRANSFERS.—An Indian tribe is entitled to retain interest earned on any funds paid under a compact or funding agreement to carry out governmental or health purposes and such interest shall not diminish the amount of funds the Indian tribe is authorized to receive under its funding agreement in the year the interest is earned or in any subsequent fiscal year. Funds transferred under this title shall be managed using the prudent investment standard.

“(i) CARRYOVER OF FUNDS.—All funds paid to an Indian tribe in accordance with a compact or funding agreement shall remain available until expended. “(j) PROGRAM INCOME.—All Medicare, Medicaid, or other program income earned by an Indian tribe shall be treated as supplemental funding to that negotiated in the funding agreement. The Indian tribe may retain all such income and expend such funds in the current year or in future years except to the extent that the Indian Health Care Improvement Act (25 U.S.C. 1601 et seq.) provides otherwise for Medicare and Medicaid receipts. Such funds shall not result in any offset or reduction in the amount of funds the Indian tribe is authorized to receive under its funding agreement in the year the program income is received or for any subsequent fiscal year.

“(k) LIMITATION OF COSTS.—An Indian tribe shall not be obligated to continue performance that requires an expenditure of funds in excess of the amount of funds transferred under a compact or funding agreement. If at any time the Indian tribe has reason to believe that the total amount provided for a specific activity in the compact or funding agreement is insufficient the Indian tribe shall provide reasonable notice of such insufficiency to the Secretary. If the Secretary does not increase the amount of funds transferred under the funding agreement, the Indian tribe may

The Congress finds the following:

(1) Public Law 104-311 (110 Stat. 3818) amended section 5 of the Wild and Scenic Rivers Act (16 U.S.C. 1276) to require the study of the Wekiva River and its tributaries of Rock Springs Run and Seminole Creek for potential inclusion in the national wild and scenic rivers system.

(2) The study determined that the Wekiva River, Wekiwa Springs Run, Rock Springs Run, and Black Water Creek are eligible for inclusion in the national wild and scenic rivers system.

(3) The State of Florida has demonstrated its commitment to protecting these rivers and streams by the enactment of the Wekiva River Protection Act (Florida Statute chapter 369), by the establishment of a riparian wildlife protection zone and water quality protection zone by the St. Johns River Water Management District, and by the acquisition of lands adjacent to these rivers and streams for conservation purposes.

(4) The Florida counties of Lake, Seminole, and Orange have demonstrated their commitment to protect these rivers and streams in their comprehensive land use plans and land development regulations.

(5) The desire for designation of these rivers and streams as components of the national wild and scenic rivers system has been demonstrated through strong public support, State and local agency support, and the endorsement of designation by the Wekiva River Basin Ecosystem Working Group, which represents a broad cross section of State and local agencies, landowners, environmentalists, nonprofit organizations, and recreational users.

(6) The entire lengths of the Wekiva River, Rock Springs Run, and Black Water Creek are held in public ownership or conservation easements or are defined as waters of the State of Florida.

Public Law 106-300 106th Congress

An Act

Oct. 13, 2000
[H.R. 4318]

To establish the Red River National Wildlife Refuge.

Red River
National Wildlife
Refuge Act.
Louisiana.
16 USC 668dd
note.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Red River National Wildlife Refuge Act”.

SEC. 2. FINDINGS.

The Congress finds the following:

(1) The area of Louisiana known as the Red River Valley, located along the Red River Waterway in Caddo, Bossier, Red River, Natchitoches, and De Soto Parishes, is of critical importance to over 350 species of birds (including migratory and resident waterfowl, shore birds, and neotropical migratory birds), aquatic life, and a wide array of other species associated with river basin ecosystems.

(2) The bottomland hardwood forests of the Red River Valley have been almost totally cleared. Reforestation and restoration of native habitat will benefit a host of species.

(3) The Red River Valley is part of a major continental migration corridor for migratory birds funneling through the mid continent from as far north as the Arctic Circle and as far south as South America.

(4) There are no significant public sanctuaries for over 300 river miles on this important migration corridor, and no significant Federal, State, or private wildlife sanctuaries along the Red River north of Alexandria, Louisiana.

(5) Completion of the lock and dam system associated with the Red River Waterway project up to Shreveport, Louisiana, has enhanced opportunities for management of fish and wildlife.

(6) The Red River Valley offers extraordinary recreational, research, and educational opportunities for students, scientists, bird watchers, wildlife observers, hunters, anglers, trappers, hikers, and nature photographers.

(7) The Red River Valley is an internationally significant environmental resource that has been neglected and requires active restoration and management to protect and enhance the value of the region as a habitat for fish and wildlife.

106th Congress

An Act

To establish the Yuma Crossing National Heritage Area.

Oct. 19, 2000

[H.R. 2833]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; DEFINITIONS.

(a) SHORT TITLE.—This Act may be cited as the “Yuma Crossing National Heritage Area Act of 2000”.

(b) DEFINITIONS.—In this Act:

(1) HERITAGE AREA.—The term “Heritage Area” means the Yuma Crossing National Heritage Area established in section 3.

(2) MANAGEMENT ENTITY.—The term “management entity” shall mean the Yuma Crossing National Heritage Area Board of Directors referred to section 3(c).

(3) MANAGEMENT PLAN.—The term “management plan” shall mean the management plan for the Yuma Crossing National Heritage Area.

(4) SECRETARY.—The term “Secretary” means the Secretary of the Interior.

SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—The Congress finds the following:

(1) Certain events that led to the establishment of the Yuma Crossing as a natural crossing place on the Colorado River and to its development as an important landmark in America’s westward expansion during the mid-19th century are of national historic and cultural significance in terms of their contribution to the development of the new United States of America.

(2) It is in the national interest to promote, preserve, and protect physical remnants of a community with almost 500 years of recorded history which has outstanding cultural, historic, and architectural value for the education and benefit of present and future generations.

(3) The designation of the Yuma Crossing as a national heritage area would preserve Yuma’s history and provide related educational opportunities, provide recreational opportunities, preserve natural resources, and improve the city and county of Yuma’s ability to serve visitors and enhance the local economy through the completion of the major projects identified within the Yuma Crossing National Heritage Area.

(4) The Department of the Interior is responsible for protecting the Nation’s cultural and historic resources. There are significant examples of these resources within the Yuma region to merit the involvement of the Federal Government in developing programs and projects, in cooperation with the Yuma Crossing National Heritage Area and other local and governmental bodies, to adequately conserve, protect, and interpret this heritage for future generations while providing opportunities for education, revitalization, and economic development.

(5) The city of Yuma, the Arizona State Parks Board, agencies of the Federal Government, corporate entities, and citizens have completed a study and master plan for the Yuma

National
Heritage Area
Act of 2000.

Crossing to determine the extent of its historic resources, preserve and interpret these historic resources, and assess the opportunities available to enhance the cultural experience for region's visitors and residents.

(6) The Yuma Crossing National Heritage Area Board of Directors would be an appropriate management entity for a heritage area established in the region.

(b) PURPOSE.—The objectives of the Yuma Crossing National Heritage Area are as follows:

(1) To recognize the role of the Yuma Crossing in the development of the United States, with particular emphasis on the roll of the crossing as an important landmark in the westward expansion during the mid-19th century.

(2) To promote, interpret, and develop the physical and recreational resources of the communities surrounding the Yuma Crossing, which has almost 500 years of recorded history and outstanding cultural, historic, and architectural assets, for the education and benefit of present and future generations.

(3) To foster a close working relationship with all levels of government, the private sector, and the local communities in the Yuma community and empower the community to conserve its heritage while continuing to pursue economic opportunities.

(4) To provide recreational opportunities for visitors to the Yuma Crossing and preserve natural resources within the Heritage Area.

(5) To improve the Yuma region's ability to serve visitors and enhance the local economy through the completion of the major projects identified within the Heritage Area.

SEC. 3. YUMA CROSSING NATIONAL HERITAGE AREA.

(a) ESTABLISHMENT.—There is hereby established the Yuma Crossing National Heritage Area.

(b) BOUNDARIES.—The Heritage Area shall be comprised of those portions of the Yuma region totaling approximately 21 square miles, encompassing over 150 identified historic, geologic, and cultural resources, and bounded—

(1) on the west, by the Colorado River (including the crossing point of the Army of the West);

(2) on the east, by Avenue 7E;

(3) on the north, by the Colorado River; and

(4) on the south, by the 12th Street alignment.

(c) MANAGEMENT ENTITY.—The management entity for the Heritage Area shall be the Yuma Crossing National Heritage Area Board of Directors which shall include representatives from a broad cross-section of the individuals, agencies, organizations, and governments that were involved in the planning and development of the Heritage Area before the date of the enactment of this Act.

SEC. 4. COMPACT.

(a) IN GENERAL.—To carry out the purposes of this Act, the Secretary of the Interior shall enter into a compact with the management entity.

(b) COMPONENTS OF COMPACT.—The compact shall include information relating to the objectives and management of the Heritage Area, including each of the following:

(1) A discussion of the goals and objects of the Heritage Area.

(2) An explanation of the proposed approach to conservation and interpretation of the Heritage Area.

An Act

To establish the Santa Rosa and San Jacinto Mountains National Monument in the State of California.

Oct. 24, 2000

[H.R. 3676]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the “Santa Rosa and San Jacinto Mountains National Monument Act of 2000”.

(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

- Sec. 1. Short title; table of contents.
- Sec. 2. Establishment of Santa Rosa and San Jacinto Mountains National Monument, California.
- Sec. 3. Management of Federal lands in the National Monument.
- Sec. 4. Development of management plan.
- Sec. 5. Existing and historical uses of Federal lands included in Monument.
- Sec. 6. Acquisition of land.
- Sec. 7. Local advisory committee.
- Sec. 8. Authorization of appropriations.

SEC. 2. ESTABLISHMENT OF SANTA ROSA AND SAN JACINTO MOUNTAINS NATIONAL MONUMENT, CALIFORNIA.

(a) FINDINGS.—Congress finds the following:

(1) The Santa Rosa and San Jacinto Mountains in southern California contain nationally significant biological, cultural, recreational, geological, educational, and scientific values.

(2) The magnificent vistas, wildlife, land forms, and natural and cultural resources of these mountains occupy a unique and challenging position given their proximity to highly urbanized areas of the Coachella Valley.

(3) These mountains, which rise abruptly from the desert floor to an elevation of 10,802 feet, provide a picturesque backdrop for Coachella Valley communities and support an abundance of recreational opportunities that are an important regional economic resource.

(4) These mountains have special cultural value to the Agua Caliente Band of Cahuilla Indians, containing significant cultural sites, including village sites, trails, petroglyphs, and other evidence of their habitation.

(5) The designation of a Santa Rosa and San Jacinto Mountains National Monument by this Act is not intended to impact upon existing or future growth in the Coachella Valley.

(6) Because the areas immediately surrounding the new National Monument are densely populated and urbanized, it is anticipated that certain activities or uses on private lands outside of the National Monument may have some impact upon the National Monument, and Congress does not intend, directly or indirectly, that additional regulations be imposed on such uses or activities as long as they are consistent with other applicable law.

(7) The Bureau of Land Management and the Forest Service should work cooperatively in the management of the National Monument.

(b) ESTABLISHMENT AND PURPOSES.—In order to preserve the nationally significant biological, cultural, recreational, geological, educational, and scientific values found in the Santa Rosa and

Santa Rosa and

(1) **PREPARATION AND SUBMISSION.**—As soon as practicable after the date of the enactment of this Act, the Secretary of the Interior shall use the map referred to in subsection (c) to prepare legal descriptions of the boundaries of the National Monument. The Secretary shall submit the resulting legal descriptions to the Committee on Resources and the Committee on Agriculture of the House of Representatives and to the Committee on Energy and Natural Resources and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

(2) **LEGAL EFFECT.**—The map and legal descriptions of the National Monument shall have the same force and effect as if included in this Act, except that the Secretary of the Interior may correct clerical and typographical errors in the map and legal descriptions. Veterans' Oral

Act.
20 USC 2101
note.

20 USC 2141.

To direct the American Folklife Center at the Library of Congress to establish a program to collect video and audio recordings of personal histories and testimonials of American war veterans, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled

SECTION 1. SHORT TITLE.

This Act may be cited as the “Veterans’ Oral History Project Act”.

SEC. 2. FINDINGS; PURPOSE.

(a) FINDINGS.—Congress finds as follows:

(1) Military service during a time of war is the highest sacrifice a citizen may make for his or her country.

(2) 4,700,000 Americans served in World War I, 16,500,000 Americans served in World War II, 6,800,000 Americans served in the Korean Conflict, 9,200,000 Americans served in the Vietnam Conflict, 3,800,000 Americans served in the Persian Gulf War, and countless other Americans served in military engagements overseas throughout the 20th century.

(3) The Department of Veterans Affairs reports that there are almost 19,000,000 war veterans living in this Nation today.

(4) Today there are only approximately 3,400 living veterans of World War I, and of the some 6,000,000 veterans of World War II alive today, almost 1,500 die each day.

(5) Oral histories are of immeasurable value to historians, researchers, authors, journalists, film makers, scholars, students, and citizens of all walks of life.

(6) War veterans possess an invaluable resource in their memories of the conflicts in which they served, and can provide a rich history of our Nation and its people through the retelling of those memories, yet frequently those who served during times of conflict are reticent to family and friends about their experiences.

(7) It is in the Nation’s best interest to collect and catalog oral histories of American war veterans so that future generations will have original sources of information regarding the lives and times of those who served in war and the conditions under which they endured, so that Americans will always remember those who served in war and may learn first-hand of the heroics, tediousness, horrors, and triumphs of war.

(8) The Library of Congress, as the Nation’s oldest Federal cultural institution and largest and most inclusive library in human history (with nearly 119,000,000 items in its multimedia collection) is an appropriate repository to collect, preserve, and make available to the public an archive of these oral histories. The Library’s American Folklife Center has expertise in the management of documentation projects and experience in the development of cultural and educational programs for the public.

(b) PURPOSE.—It is the purpose of this Act to create a new federally sponsored, authorized, and funded program that will coordinate at a national level the collection of video and audio recordings of personal histories and testimonials of American war veterans, and to assist and encourage local efforts to preserve

PUBLIC LAW 106-380—OCT. 27, 2000

the memories of this Nation's war veterans so that Americans of all current and future generations may hear directly from veterans and better appreciate the realities of war and the sacrifices made by those who served in uniform during wartime.

SEC. 3. ESTABLISHMENT OF PROGRAM AT AMERICAN FOLKLIFE CENTER TO COLLECT VIDEO AND AUDIO RECORDINGS OF HISTORIES OF VETERANS. 20 USC 2142.

(a) **IN GENERAL.**—The Director of the American Folklife Center at the Library of Congress shall establish an oral history program—

(1) to collect video and audio recordings of personal histories and testimonials of veterans of the Armed Forces who served during a period of war;

(2) to create a collection of the recordings obtained (including a catalog and index) which will be available for public use through the National Digital Library of the Library of Congress and such other methods as the Director considers appropriate to the extent feasible subject to available resources; and

(3) to solicit, reproduce, and collect written materials (such as letters and diaries) relevant to the personal histories of veterans of the Armed Forces who served during a period of war and to catalog such materials in a manner the Director considers appropriate, consistent with and complimentary to the efforts described in paragraphs (1) and (2).

(b) **USE OF AND CONSULTATION WITH OTHER ENTITIES.**—The Director may carry out the activities described in paragraphs (1) and (3) of subsection (a) through agreements and partnerships entered into with other government and private entities, and may otherwise consult with interested persons (within the limits of available resources) and develop appropriate guidelines and arrangements for soliciting, acquiring, and making available recordings under the program under this Act.

(c) **TIMING.**—As soon as practicable after the enactment of this Act, the Director shall begin collecting video and audio recordings under subsection (a)(1), and shall attempt to collect the first such recordings from the oldest veterans.

SEC. 4. PRIVATE SUPPORT.

20 USC 2143.

(a) **ACCEPTANCE OF DONATIONS.**—The Librarian of Congress may solicit and accept donations of funds and in-kind contributions to carry out the oral history program under section 3.

(b) **ESTABLISHMENT OF SEPARATE GIFT ACCOUNT.**—There is established in the Treasury (among the accounts of the Library of Congress) a gift account for the oral history program under section 3.

(c) **DEDICATION OF FUNDS.**—Notwithstanding any other provision of law—

(1) any funds donated to the Librarian of Congress to carry out the oral history program under section 3 shall be deposited entirely into the gift account established under subsection (b);

(2) the funds contained in such account shall be used solely to carry out the oral history program under section 3; and

(3) the Librarian of Congress may not deposit into such account any funds donated to the Librarian which are not donated for the exclusive purpose of carrying out the oral history program under section 3.
